Please see the Summary Sheet for a detailed list of the committee version of the House bill.

The following is a summary of the public testimony from the committee hearing. The testimony was based on the introduced version of the bill.

PROPONENTS: Supporters say that the boards and commissions in the bill have not met for years and have not had appointments for years. These are provisions of law that no longer have any effect and we should remove unnecessary statutes so they don't muck up the books. No one has systemically examined the defunct boards and commissions in statute for over a decade and this bill is an attempt to do so. The bill does not eliminate important work or endanger cybersecurity efforts.

Testifying in person for the bill were Senator Coleman.

OPPONENTS: There was no opposition voiced to the committee.

Written testimony has been submitted for this bill. The full written testimony and witnesses testifying online can be found under Testimony on the bill page on the House website.
