Opening Address

Senator Dave Schatz, President Pro Tem

First Regular Session, 100th General Assembly

January 9, 2019

Friends, colleagues, and guests: good afternoon. I am humbled to be speaking from this dais today, the first day of the 100th General Assembly, as our Senate Pro Tem. Before we begin, let us recognize the honored guests who have joined us.

We come from different backgrounds, we have varied policy preferences, and we often have competing priorities. But we are all here, together, because we felt called to serve our communities. And we are able to serve because of the support of our families. At this time I'd like to thank my family, and all of yours, for making our service possible through their sacrifice. I would like to recognize my family for the tremendous support they have given me through the years:

My wife, Chara. My son David and his wife Stephanie, along with their children: Caden, Nolan, and Tyson. My daughter Devon, her husband Woody, and their son William. And my daughters Dailee and Dana.

Being away from our loved ones is the hardest part of this job. We owe it to them to make the most of our time here—to build a better Missouri

for our children and grandchildren.

As I embark on the opportunity to serve each of you as Pro Tem I am reminded of the lessons learned through decades of working in my family's small business. Our business is like thousands of others throughout this state—we work together to provide for our customers. Through the dignity of their own hard work our employees support their families, care for their loved ones, and provide opportunities to their children that they never would have dreamed.

We've had successes and setbacks. We've celebrated our personal and professional achievements as a family—and we've supported one another through tragedy—including my own. Through it all, we have relied on one another as family.

The same hallmarks of our small business successes have preserved this institution through our state's good days and bad. In the Senate, our success relies on our collegial relationships and deliberative debate. Romans 12:18 tells us “If it is possible, as far as it depends on you, live at peace with everyone.” The key there is that peace depends on us. This will be my guiding principle as I seek to serve and honor the trust each of you have placed in me. There will be many debates and many long nights in the coming months, but we should never lose sight that we were all called to this place in the name of public service.

We can disagree without being disagreeable—it's a choice we must consciously make every day. The work we do here isn't glamorous and it often attracts harsh and sometimes hurtful feedback—but it's important work nevertheless. The faith our constituents have placed in us is immense—we have a responsibility to them to look beyond our differences and find common ground.

When I find myself feeling frustrated in this chamber, I look at the fronts of our desks as I am now. And I see our district numbers there and not our own names. And I am reminded that we are here for our constituents and not for ourselves.

Each and every day, we owe it to the people of Missouri to remain committed to our shared priorities—great schools, good jobs, and safe communities. We must work to reduce the burden of government by promoting reforms to our regulatory, tort, and tax systems to ensure Missouri can compete and win in the 21st century. We will pass a fiscally responsible and balanced budget. And we will work to ensure that our shared priorities, like education and infrastructure, receive the investment they deserve.

We face an economy that is very different from the one many of us grew up in. Advanced practical skills are the ticket to the middle class and economic prosperity. We need to invest in the citizens of our state by offering training opportunities—regardless of age or previous experience. Any Missourian that wants to better themselves through hard work and education should have their state as an ally—not as a hindrance.

When I look back on this session, I will not measure our success by the quantity of legislation we pass but by the quality. We won't measure ourselves by the number of days we spent here—but by the lives we positively impact.

Though we face many challenges in the year ahead, I rest a little easier knowing that this body has nearly two centuries of history to call upon. The traditions and decorum of this institution deserve our respect and our passionate defense. I appreciate the ability to speak my mind plainly, maybe sometimes a little too plainly, and to hear my fellow senators do the same. I appreciate the great wisdom I've picked up listening to our debates—and the growth that comes from working together. And I appreciate the hard work of our Senate staff, true public servants, who spend many long days and late nights keeping us on track and moving forward.

I am not one for long speeches so I will leave you with one final thought that is not original but that has been repeated in this chamber often because of its power and plain truth. What I consider the unofficial motto of our chamber, is inscribed on this wall: “Free and Fair Discussion Will Ever Be Found the Firmest Friend to Truth.” Let us remember this in the days and months to come and let us work together to make Missouri better for every person who calls it home. May God bless our work and our great State of Missouri.

CONCURRENT RESOLUTIONS

Senator Walsh offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 1

Whereas, the Missouri Constitution outlines a process for the residents of St. Louis City and St. Louis County to vote on their governmental structure through the establishment of a Board of Freeholders by petition or appointment by the County Executive, Mayor of St. Louis, and Governor of Missouri; and

Whereas, some Missourians may seek a statewide vote on a constitutional amendment to bypass the voters of St. Louis City and St. Louis County; and

Whereas, a statewide vote on such an important matter of local government structure would set a precedent that could lead to subsequent statewide votes mandating the consolidation of counties, school districts, and other political subdivisions throughout Missouri, against the wishes of voters in those political subdivisions; and

Whereas, in 1962, the voters of Missouri overwhelmingly rejected, by a vote of 74% to 26%, a constitutional amendment to merge the governments of St. Louis and St. Louis County; and

Whereas, the appropriate way for those wishing to change the structure of St. Louis City and County government is to convince the voters of St. Louis City and County of the benefits of such changes, not to convince voters elsewhere in Missouri; and

Whereas, the St. Louis County Council, which governs the largest county in the state of Missouri with nearly one million residents, and the Board of Aldermen of the City of St. Louis, which governs the second-largest city in the state of Missouri with over 315,000 residents, should have a major voice in all discussions of St. Louis regional governance; and

Whereas, the governing bodies of all municipalities in St. Louis County should also have significant involvement in any such discussions to advance the best interests of their residents; and

Whereas, the St. Louis County Council and 57 of the 89 municipalities in St. Louis County have passed resolutions opposing a statewide vote on a constitutional amendment to change the structure of St. Louis City and County government:

Now Therefore Be It Resolved that the members of the Missouri Senate, One-Hundredth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby oppose any statewide vote or legislative mandate on governmental reorganization regarding the City of St. Louis and St. Louis County and the municipalities therein; and

Be It Further Resolved that the General Assembly does not take a position on whether St. Louis City and St. Louis County should consolidate or should otherwise change their government structure; and

Be It Further Resolved that the General Assembly supports the people of St. Louis City and St. Louis County having a productive discussion about the reorganization and/or consolidation of their governments and improving their regional governance however they best see fit.

Senator Hegeman offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 2

Relating to the replacement of a statue in the Statuary Hall of the Capitol of the United States.

Whereas, 40 U.S.C. Section 187 permits a state to ask the Joint Committee on the Library of Congress for replacement of a statue it provided for display in the National Statuary Hall in the Capitol of the United States after the passage of the required display time period specified in 40 U.S.C. Section 187a; and

Whereas, that request must be made by a resolution adopted by the legislature of the state and approved by the Governor; and

Whereas, in 1895, the Missouri General Assembly authorized placement of statues of Thomas Hart Benton and Francis Preston Blair in Statuary Hall, which statues were placed there in 1899; and

Whereas, Thomas Hart Benton was a five-term United States Senator from Missouri and was an architect and champion of westward expansion by the United States; and

Whereas, Harry S Truman was the most important statesman Missouri ever gave the nation, an outstanding county official, United States Senator, Vice President and President of the United States who brought the Second World War to completion, led the free world at the beginning of the Cold War, and stood for fairness and opportunity for all Americans:

Now Therefore Be It Resolved by the members of the Missouri Senate, One-hundredth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby request approval from the Joint Committee on the Library of Congress to replace the statue of Thomas Hart Benton with a statue of Harry S Truman as one of the two statues Missouri is entitled to display in the Statuary Hall of the United States Capitol; and

Be It Further Resolved that the Missouri General Assembly requests the Statue of Thomas Hart Benton be returned to the State of Missouri as permitted under 40 U.S.C. Section 187a(d); and

Be It Further Resolved that Secretary of the Senate be instructed to send copies of this resolution for the Joint Committee on the Library of Congress in care of the chair of the committee and to each member of the Missouri Congressional delegation; and

Be It Further Resolved that the Secretary of the Senate be instructed to send a properly inscribed copy of this resolution to the Governor for his approval or rejection pursuant to the Missouri Constitution.

CONCURRENT RESOLUTIONS

SENATE CONCURRENT RESOLUTION NO. 3

Whereas, pornography perpetuates a sexually toxic environment; and

Whereas, efforts to prevent pornography exposure and addiction, to educate individuals and families concerning its harms, and to develop recovery programs should be addressed systematically in ways that hold broader influences accountable; and

Whereas, pornography may contribute to the hypersexualization of teenagers, and even prepubescent children, in our society; and

Whereas, owing to advances in technology and the universal availability of the internet, young children can be exposed to what used to be referred to as hardcore, but is now considered mainstream, pornography at an alarming rate; and

Whereas, the average age of exposure to pornography is now 11 to 12 years of age;

Whereas, this early exposure can lead to low self-esteem and body image disorders, an increase in problematic sexual activity at younger ages, and an increased desire among adolescents to engage in risky sexual behavior; and

Whereas, exposure to pornography may serve as children’s and youth’s sex education and may shape their sexual templates; and

Whereas, pornography may normalize violence and abuse; and

Whereas, pornography often depicts rape and abuse as if such acts are harmless; and

Whereas, pornography equates violence with sex and pain with pleasure, which increases the demand for sex trafficking, prostitution, images of child sexual abuse, and child pornography; and

Whereas, use of pornography can potentially negatively affect brain development and functioning, contribute to emotional and medical illnesses, shape deviant sexual arousal, and lead to difficulty in forming or maintaining intimate relationships as well as problematic or harmful sexual behaviors and addiction; and

Whereas, use of pornography, by either partner, is linked to an increased likelihood that individuals will engage in group intercourse; and

Whereas, recent research indicates that pornography is potentially biologically addictive, which means the user requires more novelty,

often in the form of more shocking material, in order to be satisfied; and

Whereas, this biological addiction may lead to increasing themes of risky sexual behaviors, extreme degradation, violence, child sexual abuse, and child pornography; and

Whereas, pornography use is linked to lessening desire to marry, dissatisfaction in marriage, and infidelity; and

Whereas, this link demonstrates that pornography has a detrimental effect on the family unit:

Now, Therefore, Be It Resolved that the members of the Missouri Senate, One-hundredth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby recognize pornography as leading to individual and societal harms and recognize the need for education, prevention, research, and policy change at the community and societal level.

FIFTH DAY—WEDNESDAY, JANUARY 16, 2019

The Senate met pursuant to adjournment.

President Kehoe in the Chair.

Reverend Carl Gauck offered the following prayer:

“I wish to preach, not the doctrine of ignoble ease, but the doctrine of the strenuous life.” (Theodore Roosevelt 1899)

Gracious God, we may never know the number of times people have failed to provide the victories You have laid out before us simply because we fail to put forth the extra time and effort that was needed. We pray that You will grant us the strength to not quit when we are discouraged but to push forward to bring forth the victories that You require of us. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

CONCURRENT RESOLUTIONS

Senator Schupp offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 6

Whereas, extensive and credible reports have revealed mass killing of prisoners of conscience in the People's Republic of China, primarily practitioners of the spiritual based exercises of Falun Gong, but also other religious and ethnic minority groups, in order to obtain organs for transplants; and

Whereas, the organ transplantation system in China does not comply with the World Health Organization's Guiding Principles of traceability and transparency in organ procurement pathways, and the government of the People's Republic of China has resisted independent scrutiny of the system; and

Whereas, traditional Chinese custom requires bodies to be preserved intact after death. With rare voluntary organ donation, however, China's transplantation industry significantly increased since 2000; and

Whereas, the 2017 Freedom House Report "The Battle for China's Spirit" states that "Available evidence suggests that forced extraction of organs from Falun Gong detainees for sale in transplant operations has occurred on a large scale and may be continuing"; and

Whereas, an investigative report, published in June 2016, conducted by human rights attorney David Matas, former Canadian Secretary of State for Asia-Pacific David Kilgour, and journalist Ethan Gutmann, estimated that China is performing 60,000 to 100,000 transplants per year as opposed to 10,000 transplants claimed by the Chinese government, which is "an industrial-scale, state-directed organ transplantation system, controlled through national policies and funding, and implicating both the military and civilian healthcare systems"; and

Whereas, China's Liver Transplant Registry System indicated that more than 25% of cases were emergency transplants, for which an organ was found within days or even hours. Wait times for non-emergency liver transplants were usually quoted in weeks. Most patients in other countries have to wait years for a transplant; and

Whereas, the Chinese government claims that 90% of China's organ transplant sources come from executed prisoners. However, the number of executions has dropped 10% annually since 2002 and is far less than the number of transplants taking place. The government has never acknowledged the sourcing of organs from prisoners of conscience; and

Whereas, Falun Gong, a spiritual practice involving meditative "qigong" exercises and centered on the values of truthfulness, compassion, and forbearance, became immensely popular in China in the 1990s, with multiple estimates placing the number of practitioners at upwards of 70 million; and

Whereas, in July 1999, the Chinese Communist Party launched an intensive, nationwide persecution designed to eradicate the spiritual practice of Falun Gong, including physical and mental torture, reflecting the party's long-standing intolerance of large independent civil society groups; and

Whereas, since 1999, hundreds of thousands of Falun Gong practitioners have been detained extra-legally in Chinese reeducation-through-labor camps, detention centers, and prisons, where torture, abuse, and implausible medical exams and blood tests on Falun Gong practitioners

are routine; and

Whereas, Freedom House reported in 2015 that Falun Gong practitioners comprise the largest portion of prisoners of conscience in China, and face an elevated risk of dying or being killed in custody; and

Whereas, the United Nations Committee Against Torture and the Special Rapporteur on Torture have expressed concern over the allegations of organ harvesting from Falun Gong prisoners, and have called on the Government of the People's Republic of China to increase accountability and transparency in the organ transplant system and punish those responsible for abuses; and

Whereas, in June 2016, the U.S. House of Representatives unanimously passed House Resolution 343, condemning the systematic, state-sanctioned organ harvesting from Falun Gong and other prisoners of conscience; and

Whereas, the killing of religious or political prisoners for the purpose of selling their organs for transplant is an egregious and intolerable violation of the fundamental right to live; and

Whereas, organ tourism to China should not be shielded by medical confidentiality, but openly monitored. No nation should allow their citizens to go to China for organs until China has allowed a full investigation into organ harvesting of prisoners of conscience, both past and present:

Now Therefore Be It Resolved that the members of the Missouri Senate, One-Hundredth General Assembly, First Regular Session, the House of Representatives concurring therein:

(1) Call upon the Government of the People's Republic of China to immediately end the practice of organ harvesting from all prisoners and prisoners of conscience, and explicitly from Falun Gong prisoners of conscience and members of other religious and ethnic minority groups;

(2) Call upon the Government of the People's Republic of China to immediately end the 17-year persecution of the Falun Gong, and the immediate release of all Falun Gong practitioners and other prisoners of conscience;

(3) Call upon the President of the United States to undertake a full and transparent investigation by the United States Department of State into organ transplant practices in the People's Republic of China, and calls for the prosecution of those found to have engaged in such unethical practices;

(4) Encourage the medical community of Missouri to engage in educating colleagues and residents of Missouri about the risks of travel to China for organ transplants so as to help prevent Missouri residents from unwittingly becoming involved in murder in the form of forced organ harvesting from prisoners of conscience; and

(5) Agree to take measures to ban the entry of those who have participated in illegal removal of human tissues and organs, and seek prosecution of such individuals should they be found on the soil of Missouri; and

Be It Further Resolved that the Secretary of the Missouri Senate be instructed to prepare properly inscribed copies of this resolution for the President and Vice President of the United States, the President and Secretary of the United States Senate, the Speaker and Clerk of the United States House of Representatives, the chair of the Senate Committee on Foreign Affairs, the chair of the House Committee on Foreign Relations, and each member of Missouri's Congressional delegation.

CONCURRENT RESOLUTIONS

Senator Schupp offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 7

Relating to the ratification of the Equal Rights Amendment to the United States Constitution.

Whereas, three years after women won the right to vote, the Equal Rights Amendment to the United States Constitution, authored by Alice Paul, head of the National Women's Party, was introduced in Congress by Senator Curtis and Representative Anthony, both Republicans; and

Whereas, the Equal Rights Amendment to the United States Constitution passed the United States Senate and then the United States House of Representatives, and on March 22, 1972, the proposed Amendment to the United States Constitution was sent to the states for ratification; and

Whereas, the Equal Rights Amendment to the United States Constitution states:

“Section 1. Equality of rights under the law shall not be denied or abridged by the United States or by any state on account of sex.

Section 2. The Congress shall have the power to enforce, by appropriate legislation, the provisions of this article.

Section 3. This amendment shall take effect two years after the date of ratification.”; and

Whereas, Congress placed a deadline of June 30, 1982, on the ratification process and thirty-five states ratified the proposed Amendment before the deadline; and

Whereas, Congress may not have the constitutional authority to place a deadline on the ratification process; and

Whereas, Article V of the United States Constitution allows the General Assembly of the State of Missouri to ratify this proposed Amendment to the Constitution of the United States; and

Whereas, the General Assembly of the State of Missouri finds that the proposed Amendment is meaningful and needed as part of the United States Constitution and that the present political, social, and economic conditions are the same as or are even more demanding today than they were when the proposed Amendment was first submitted for adoption:

Now, Therefore, Be It Resolved that the members of the Missouri Senate, One Hundredth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby ratify the Equal Rights Amendment to the United States Constitution; and

Be It Further Resolved that the Secretary of the Senate be instructed to prepare a properly inscribed copy of this resolution for the Archivist of the United States, Washington, D.C.; Vice President of the United States; Speaker of the United States House of Representatives; and each member of the Missouri Congressional delegation with request that it be printed in the Congressional Record.

Mr. Speaker

ABSENT: 2

Gray McDaniel

VACANCIES: 1

The Joint Committee appointed to wait upon His Excellency, Governor Mike Parson, escorted the Governor to the dais where he delivered the State of the State Address to the Joint Assembly:

**2019 STATE OF THE STATE
GOVERNOR MIKE PARSON**

Thank you Lieutenant Governor Kehoe ...

Speaker Haahr...

President Pro-Tem Schatz...

Judges of the Missouri Supreme Court ...

Distinguished state officials...

Members of the 100th General Assembly...AND my fellow Missourians.

I am honored and proud to stand before you this afternoon as the 57th Governor of the state of Missouri.

And, one of the highest honors I have as Governor is to introduce the First Lady of the State of Missouri Teresa Parson.

I am so proud of her and the grace she brings to her position as First Lady.

And...I look forward to the days when we have more time to spend with each other...our family...and our grandchildren... But, until that time, our dedication... will be to the people of the State of Missouri.

Months ago I came into office amid rare and unique circumstances, yet the focus from day one of my administration was putting the people of Missouri first... where they belong, ahead of partisan differences or personal gain.

We traveled to every corner of this great State...we listened... we heard...and...we learned.

I stand before you today to share a vision. A vision that will chart Missouri's future into the next decade. Missouri is dear to my heart, and by working together, we can protect and build a Missouri that is successful for the next generation.

The more we listened, the more it became clear that the people of Missouri are ready for bold solutions.

Even when times are good, Missourians still face many issues and have a frustration with government that often works to protect the status quo and is unwilling to take bold steps.

However, to move Missouri forward, we must take bold steps and tackle big issues.

I will commit to you that bold ideas and tough challenges will not be something we shy away from, but my administration is willing to work with this legislature in a disciplined and focused way... and together, we can achieve big results and lay a solid foundation for our state's future.

It's time to have an honest conversation about the challenges we face and the solutions we need.

The honest truth is that we have not been as efficient as we can be. We don't promote our state, our resources, and our people as best we should, and we have not prepared our state well enough for the future... and every Missourian deserves better.

Make no mistake about it, we have before us one of the greatest opportunities, by working together to improve Missouri and to be the BEST in the United States of America.

The longer we delay and avoid tough decisions, the bigger our problems become.

Many of us are willing to admit this, and I hope you can agree that we cannot afford to delay action any longer. I am asking for your help to move Missouri forward and deliver results... because after all ... we are the Show Me State.

What this means in practical terms is that we have to be honest about our priorities and united in our focus.

As elected officials, we are good at declaring priorities. While some of our priorities may not be the same... when we try to make EVERYTHING a priority, the fact is... nothing is truly a priority.

So let me be crystal clear, cultivating and training our workforce for high-demand jobs and investing in critical infrastructure are the priorities we must address this session.

As I have traveled the state, I know these are issues important to every single one of your districts – whether republican or democrat, urban or rural, we have good reason to work together to achieve real results for ALL Missourians.

By addressing these issues now, we will make major investments for the next generations of the state of Missouri.

There of course will be other issues that are important, like passing tax credit reform, working to make government more efficient and more accountable, protecting freedoms and promoting a culture of life, and passing regulatory and venue reform.

ALL of which must be done.

But our focus for the state of Missouri to thrive both now and into the future are on two key priorities ... - workforce development and infrastructure.

Let me tell you a story about a young man with us today...

Troy is an eighth grader from Eldon who has experienced some hardships in his life. Troy's struggles are NOT unlike many families across Missouri.

Quaker Windows is a Missouri based company that has developed a partnership with Eldon Schools to ensure students like Troy have a mentor all throughout high school...

And, to make sure that he not only receives a quality education and training, but he is also taught valuable life skills... like, the importance of showing up on time and having a strong work ethic.

Quaker Windows and Eldon Schools have a community partnership. This example should be a model of how we approach new efforts to train the next generation of workers.

Please welcome Troy who is with us here today...

We must consider making necessary changes to our education programs and update the training pipelines to ensure economic growth in Missouri.

Our true dedication should be to build and create wealth... NOT REDISTRIBUTE IT.

For example, Missouri's high school graduation rate is higher than most states. This is something we should ALL be proud of...however, we fall behind other states when we look at post-secondary education.

We are well into the 21st century... and yes, extra levels of education are needed to meet the demands of our workforce... and these jobs are going to provide higher wages, which will benefit Missouri families.

This is why my budget calls for a total investment of nearly \$75 million dollars into bold and innovative workforce development programs. Consider those programs that build off the many projects we already have in place like NGA West, Boeing's TX, Nucor Steel, and many others. When combined with our current economic development tools... ALL can be tremendously successful.

In today's world, a higher level of education should not simply mean getting college degrees. This is why I am advocating that we provide \$22 million dollars to fund a program known as Fast Track.

Fast Track will allow Missourians to receive advanced training in high-demand areas largely taught at our community colleges, technical schools, and colleges and universities. This will open the doors for Missourians to have opportunities to earn more money for their hard work.

Fast Track...will benefit tens of thousands of Missourians from every corner of the state.

But, to have a laser-like focus, we can't stop there.

We must ALSO start integrating EMPLOYER and industry-led input into the needs and demands of the workforce, like increasing Industry Recognized Credentials as part of our high school curriculum.

To further workforce development, this focus must also extend into the economic development tools we use as well.

As a result, we are going to consolidate, repurpose, and add flexibility to a series of incentives we currently offer into a more streamlined program called Missouri One Start.

That is why I am adding \$10 million dollars to the Missouri One Start program, to help place a greater emphasis on building out the workforce needs and for job creation projects, so companies who use them are forced to plant deeper roots here in Missouri and become longer and more substantial partners.

ALSO...we are providing \$16 million dollars for Missouri Excels... a program for Missouri Higher Education Institutions to develop and expand employer-driven education, training programs, and initiatives to increase career readiness.

Finally, when looking ahead, we know that we are up against the clock... competing with every other state across the country... but Missouri will be ready, with the right tools in the toolbox... We'll be ready to ensure our state will move forward in workforce development... and ALL Missourians will prosper!

Not only is workforce development going to be a priority... but to ensure future success, we also need to take a serious look at long term investments in Missouri's infrastructure.

When we talk about infrastructure, we can no longer just think about bricks and mortar, roads and bridges, but also the location in which people look to invest capital and operate the economy of the future.

One of those areas in Missouri is high-speed broadband access. We currently have about ten school districts and many rural communities that lack access to high speed broadband... and that is unacceptable.

Most recently, thanks to the President and our federal delegation ... Missouri secured \$255 million dollars for the expansion of broadband to connect our state.

With this exciting opportunity, it is also important we at the state provide funding to cover the gaps in delivering broadband.

That is why... my budget calls for an additional \$5 million dollars in broadband funding to close the gap that exists in federal funds, and truly give the highest impact for Missourians.

Another area of focus is to put a greater emphasis on our Missouri ports. Located in the heart of the country we are at the center of major opportunities, especially with the expansion of the Panama Canal.

Missouri's agriculture and manufacturing industries have no better route to global expansion than delivering our high quality products to the world through our waterways.

In addition to our rivers...Missouri has one of the largest highway systems in the country, and since we sit at the nexus of east and west, this system receives a great deal of strain.

Nonetheless, we maintain this system with one of the lowest levels of funding in the country.

Over the years, we have seen proposals go before the voters and fail, but this cannot... and... does not mean we are expected to do NOTHING.

This is why I am asking you to consider an infrastructure plan. While funded through our budget savings, it will give us the ability to begin immediate work on nearly 250 bridges across the state of Missouri... all in need of critical repair or replacement.

By doing so, we will be freeing up nearly \$350 million dollars in state and federal resources... allowing us to accelerate MoDOT's current list of state infrastructure projects.

ALSO, we will be adding a \$50 million dollar cost sharing program to assist our cities and counties to help address the most serious infrastructure needs in our local areas.

In fact, this raises the challenge for each of us to find even more creative ways to locate savings to make more substantial investments in our infrastructure without a tax increase to the people of Missouri.

These priorities did not come without some tough decisions, but as I said to you before...

If we are to deliver on meaningful priorities to the people of Missouri, tough decisions... must... be... made.

As many of you know, the Department of Corrections is faced with many challenges. AND, we will NOT shy away from these challenges.

As a former sheriff and law enforcement officer for over 22 years... I understand, firsthand, the importance of re-entry programs and alternative sentencing... We need to be more efficient in these programs so we truly offer... a second chance... AND...As Governor, I am NOT interested in building more prisons.

In fact, we've identified a plan to consolidate the operations at Crossroads and Western Missouri facilities in Cameron, Missouri.

This decision is largely driven by our dedication to find efficiencies wherever we can in state government... and this can be done while ensuring

safety... improving security... and delivering a MUCH needed pay raise.... ALL being done with no layoffs.

NOT only are we making tough decision within the Department of Corrections, but... our budget recommends another major change to reorganize and streamline the efforts of the departments of economic development and higher education... a plan which will make OUR government more efficient.

We have to start focusing more on the importance of OUTCOMES in state government and less on arguing over the inputs.

While this restructuring is important for the people of Missouri, I also want to be very clear that the problem is not our state workforce.

To the contrary, I have found overwhelmingly that we have a remarkable and dedicated state workforce.

But, we as elected leaders MUST do a better job clearly identifying expectations and priorities, communicating and managing responsibilities, and providing better training to promote our success.

Many of us in this chamber have programs in state government we think are important to our people, but as time goes by, Governors change... and legislators return home... and these programs grow with little oversight or accountability.

The result is an expanding bureaucracy which becomes less efficient for the people of Missouri.

Under my administration, we are going to fundamentally...

Restructure state government...

Demand greater efficiency and accountability...

AND improve our customer service to ALL Missourians.

I'll admit... this is going to take some time, but we are not going to put it off any longer... IT WILL START TODAY!

Just like families across Missouri... HAVING a responsible budget is important and a way of life.

For the first time in more than a decade, the Governor's budget does NOT plan to SPEND... EVERY... TAX ... DOLLAR.

We have a business smart budget that saves nearly \$120 million dollars to ensure we are prepared for any unexpected expenses.

Our budget also proposes a reduction of nearly 430 government positions... all while maintaining our conservative approach to managing and streamlining government services.

In fact, our administration recently completed the state's largest deregulation effort, eliminating nearly one out of every five state regulations.

And, each of the initiatives I have laid out would not be possible without the drive, commitment, and dedication of the Cabinet because we will not be able to achieve the type of common sense conservative reforms and restructuring Missouri needs without the remarkable talent and leadership in THIS administration.

Please join me in recognizing the entire Cabinet seated in the upper gallery...

It is important to understand that being a good leader is not about being the best, but rather about your ability to make those around you better.

Every day my staff and Cabinet are committed and focused to making all of us better, pushing one another to make MISSOURI a better place.

Just weeks after I took office quick decisions had to be made on over a hundred legislative items and the 28 billion dollar state budget had to be approved.

By working together, we were able to save millions of taxpayer dollars and implement the largest tax cut in Missouri's history.

After taking the oath of office this summer, Missouri faced some tough and difficult times.

We experienced one of the worst droughts Missouri had witnessed for many years.

I called the administration together, and we reviewed our options.

To no surprise, we learned that the typical state government response was a series of requests to the federal government for assistance. We believed that was simply unacceptable for the farmers and families of Missouri.

And instead of pushing paper... it was time for us to do more...

Through the teamwork between the Departments of Natural Resources, Agriculture, and Conservation... we put Missouri state government to work for its people and delivered meaningful relief by working together.

Again, several weeks later, we experienced tough times... when 17 individuals tragically lost their lives in the Branson incident...

It was through the efforts of both state and local officials, including nearly every state department... that Missouri was able to quickly respond, recover, and offer immediate assistance to those in dire need.

We had tough times when we lost three local law enforcement officers, and six others were shot in the line of duty.

Thankfully, by God's grace, three members of the Kansas City Police Department are with us this afternoon after being shot in the line of duty. Please welcome these officers Matt Williams, Brent Cartwright, and Michael De-Laney.

As a former sheriff, I understand what it's like to lose an officer in the line of duty, and we owe ALL these brave men and women a debt of gratitude for their dedication to public safety.

It's only a matter of time before we again face tough situations... but by faith and working together, we can ... and we will... move Missouri forward...

I was proud that we were able to come together during a special session to finish YOUR legislative priorities and pass meaningful reform to our drug courts and create opportunities for STEM education in our high schools.

These are the successes I am confident we will be able to expect this legislative session because I am also willing to acknowledge no one person or party has a monopoly on good ideas, but the best ideas are those that will serve... the people of Missouri.

A key part of our efforts to improve Missouri's workforce and infrastructure is improving our citizen's health and healthcare by developing better access to providers and hospitals.

Almost 40 percent of Missourians live in rural areas... and, we are committed to making sure they too have access to both preventive and emergency care.

In addition, we will be providing a substantial increase to help those facing the challenges of mental health, expand tele-medicine technology, fight the opioid crisis, and better serve those in need.

I'd also like to introduce another very special guest here this afternoon, my great niece Zoey... who is one of thousands living with the challenges of Autism.

The First Lady and I are deeply committed to doing all that we can to learn more about, to promote awareness, and to advance Autism research.

That is why we are advocating for \$1 million dollars to ensure families and parents have access to the right resources and are equipped to deal with the challenges that come with caring for a loved one with Autism.

Please welcome my great niece Zoey and her family to the chamber.

And, while my focus this legislative session will be on workforce development and infrastructure...

We have already started intense planning for next session... because we must also... curb Medicaid costs, which accounts for over 10 billion dollars of the state budget, and ...

That is the reason why I hired Director Todd Richardson... to lead this charge.

Safeguarding the integrity of the Missouri Medicaid program is vital to the state of Missouri... nearly one-third of Missouri's entire budget is devoted to the Medicaid program.

It must be run with the highest level of integrity to ensure every tax dollar is accounted for.

When I began this afternoon, I said it was time to have an honest conversation.

A big part of that conversation had to revolve around all of us recognizing we can do better, and as your Governor, I am committed to trying to get better every day myself.

I am willing to make the tough decisions that will put our state in a better position.

If we truly care about the next generation ... I am absolutely confident that by focusing on the major issues of workforce development and infrastructure... TOGETHER, we will have a successful legislative session... because, these are the issues that will benefit ALL Missourians.

In closing, I will leave you with a story about a young student that lives by these 10, 2-letter words:

"If it is to BE, it is up to ME."

"If it is to BE, it is up to ME."

These words have stayed with me after hearing his inspirational story. This young man had reached rock bottom and considered ending his life, but chose to overcome his obstacles and instead ... succeed in life.

When asked what motivated him, he mentioned those 10, 2 letter words ... "If it is to be, it is up to me."

Even as someone with my share of gray hair, I have to say that is wise advice.

If the American dream is to live on ...I challenge all of us to remember those 10, 2-letters words with one change...

"If it is to BE, it is up to US!"

"If it is to BE, it is up to US!"

It is an honor and privilege to be the 57th Governor of the State of Missouri.

God bless you; God bless the great state of Missouri, and God bless the United States of America.

On motion of Senator Rowden, the Joint Session was dissolved and the Senators returned to the

Journal of the Senate

FIRST REGULAR SESSION

SIXTH DAY—THURSDAY, JANUARY 17, 2019

The Senate met pursuant to adjournment.

Senator Wallingford in the Chair.

Reverend Carl Gauck offered the following prayer:

“But I trust in you, O Lord; I say, you are my God. My times are in your hand.” (Psalm 31:14-15a)

Merciful God, we bring this first full week to an end and realize that our time is in Your hands and hope we have used our time here wisely and productively. As we head home make us mindful of our responsibilities behind the wheel and help us to be a safe and courteous driver aware that there are some who are not. Be with us so we may arrive home safely to enjoy our time with loved ones. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

CONCURRENT RESOLUTIONS

Senator Holsman offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 8

Relating to an application to Congress for the calling of an Article V convention of states to propose certain amendments to the United States Constitution which regulate elections.

Whereas, the framers of the Constitution of the United States of America intended that the Congress of the United States of America should be “dependent on the people alone” (James Madison, Federalist 52); and

Whereas, that dependency has evolved from a dependency on the people alone to a dependency on powerful special interests, through campaigns or third-party groups, that have created a fundamental imbalance in our representative democracy; and

Whereas, Americans across the political spectrum agree that elections in the United States of America should be free from the disproportional influence of special interests and fair enough that any citizen can be elected into office; and

Whereas, the Constitution of the State of Missouri states “that all political power is vested in and derived from the people; that all government of right originates from the people, is founded upon their will only, and is instituted solely for the good of the whole” and the people have the exclusive right to alter their constitutions of government whenever they deem it necessary (Article I, Sections 1 & 3); and

Whereas, Article V of the United States Constitution requires Congress to call a convention for proposing amendments to the federal Constitution on the application of two-thirds of the legislatures of the several states; and

Whereas, the Missouri General Assembly perceives the need for an amendments convention in order to propose an amendment to the federal Constitution that will permanently protect free and fair elections in America by ensuring balance, integrity, and transparency to our national system of campaign finance, and desires that said convention be limited to that purpose; and

Whereas, a national convention would give us an opportunity to come together, as a nation, to discuss solutions on how to ensure the integrity of our elections, and renew the American people’s trust in government; and

Whereas, Article V clearly states that any amendment, whether proposed by Congress or by convention, must be ratified by three-fourths of the states, ensuring that only the most reasonable proposals with widespread support become part of our Constitution; and

Whereas, the State of Missouri desires that the delegates to said convention shall be comprised equally of individuals currently elected to state and local office, or be selected by election, in each Congressional district for the purpose of serving as delegates, though all individuals elected or appointed to federal office, now or in the past, be prohibited from serving as delegates to the convention, and intends to retain the ability to enforce the responsibility and conduct of its delegates within the limits expressed herein; and

Whereas, the State of Missouri intends that this be a continuing application considered together with applications calling for a convention passed in the 2013-2014 Vermont legislature as R454, the 2013-2014 California legislature as Resolution Chapter 77, the 98th Illinois General Assembly as SJR 42, the 2014-2015 New Jersey legislature as SCR 132, the 2015-2016 Rhode Island legislature as HR 7670 and SR 2589, and all other passed, pending, and future applications until such time as two-thirds of the several states have applied for a convention for a similar purpose and said convention is convened by Congress:

Now Therefore Be It Resolved that the members of the Missouri Senate, One-hundredth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby apply to the United States Congress, under the provisions of Article V of the United States Constitution for the calling of a convention of the states for the exclusive and limited purpose of proposing an amendment to the United States Constitution that will permanently protect fair elections as described herein by ensuring balance, integrity and transparency to our national system of campaign finance, as soon as two-thirds of the legislatures of the several states have applied for a convention for a similar purpose; and

Be It Further Resolved that the Secretary of the Senate transmit copies of this resolution to the President of the United States; the Vice President of the United States in his capacity as presiding officer of the United States Senate, the Speaker of the United States House of Representatives, the Minority Leader of the United States House of Representatives, the President Pro Tempore of the United States Senate, to each Senator and Representative from Missouri in the Congress of the United States with the respectful request that the full and complete text of this resolution be printed in the Congressional Record, to the presiding officers of each legislative body of each of the several states, requesting the cooperation of the states in issuing an application compelling Congress to call a convention for proposing amendments pursuant to Article V of the U.S. Constitution.

Read 1st time.

Senator Eigel offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 9

Whereas, Article I of the United States Constitution begins “All legislative powers herein granted shall be vested in a Congress”; and

Whereas, the Congress has exceeded the legislative powers granted in the Constitution thereby encroaching on the powers that are “reserved to the states respectively, or to the people” as the Tenth Amendment affirms and the rights “retained by the people” to which the Ninth Amendment refers; and

Whereas, in Federalist No. 10, James Madison wrote that “No man is allowed to be a judge in his own cause, because his interest would certainly bias his judgment, and, ...with greater reason, a body of men are unfit to be both judges and parties at the same time”; and

Whereas, this same principle was emphasized in the 1798 Kentucky Resolutions (drafted by Thomas Jefferson) that the United States government “was not made the exclusive or final judge of the extent of the powers delegated to itself; since that would have made its discretion, and not the Constitution, the measure of its powers”; and

Whereas, the Congress has latent but neglected powers to correct such judicial supremacy by means of Article III Section 2 regulations on appellate jurisdiction, yet by similar reasoning such regulatory powers should be additionally extended to the several states, heeding Jefferson’s warnings that we not make the Constitution “a mere thing of wax in the hands of the judiciary” for “to consider the judges as the ultimate arbiters of all constitutional questions” would then “place us under the despotism of an oligarchy”, rather “the people themselves” are the “true corrective of constitutional abuses” and the states remain the closest and most representative voice of the people; and

Whereas, the United States Constitution should then be amended to enable the several states to correct violations of the limited powers by the United States and thereby restore the proper balance between the powers of Congress and those of the several states, and better prevent the denial or disparagement of the rights retained by the people:

Now Therefore Be It Resolved that the members of the Missouri Senate, One-Hundredth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby strongly urge the Congress of the United States to propose the following amendment, known as the State Powers Amendment, or SPA:

“Section 1. Any provision of law or regulation of the United States may be repealed by the several states, and such repeal shall be effective when the legislatures of a Representative Majority of the several states approve resolutions for this purpose that particularly describe the same provision or provisions of law or regulation to be repealed. A Representative Majority of the several states is a majority of the states also having together a majority of the apportioned Representatives in Congress.

Section 2. The several states shall have power to make regulations and exceptions to the appellate jurisdiction of the Supreme Court and all inferior courts and tribunals of the United States, and such regulations and exceptions shall be effective when the legislatures of a Representative Majority of the several states approve identical resolutions for this purpose no more than five years apart.”; and

Be It Further Resolved that should the Congress fail to act after two-thirds of the several states petition alike in substance for a State Powers Amendment, then a “convention to propose amendments” under Article V of the United States Constitution shall be the proper course

and that delegates to such convention should be selected by the legislatures in the several states and should vote by state, according to the practices established by the 1787 Federal Convention in Philadelphia; and

Be It Further Resolved that the state of Missouri reserves its further right to petition in the same manner for further amendments as the General Assembly may deem warranted; and

Be It Further Resolved that copies of this resolution be forwarded to the legislatures of all the several states inviting them to likewise join in support of this petition; and

Be It Further Resolved that the Secretary of the Missouri Senate be instructed to prepare properly inscribed copies of this resolution for the Speaker of the United States House of Representatives, the President of the United States Senate, and each member of the Missouri congressional delegation.

Journal of the Senate

FIRST REGULAR SESSION

EIGHTH DAY—WEDNESDAY, JANUARY 23, 2019

The Senate met pursuant to adjournment.

President Kehoe in the Chair.

Reverend Carl Gauck offered the following prayer:

“O that today you would listen to his voice!” (Psalm 95:7b)

O Lord Almighty, grant that we may never lose the way through our self-will but remain obedient to accomplish what You have set before us. May our hearts long for goodness and never abandon the struggles we are required to walk through. So keep us in Your eye sight and by Your grace may we not fail You nor the people You would have us serve. And grant O Lord that we may never fail You so that we find freedom and in doing Your will, peace. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

SENATE CONCURRENT RESOLUTION NO. 10

Whereas, Section 29.351 of the Revised Statutes of Missouri provides that during the regular legislative session which convenes in an odd-numbered year, the General Assembly shall, by concurrent resolution, employ an independent certified public accountant or certified public accounting firm to conduct an audit examination of the accounts, functions, programs, and management of the State Auditor's office:

Now Therefore Be It Resolved that the members of the Missouri Senate, One-Hundredth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby authorize the employment of an independent certified public accountant or certified public accounting firm pursuant to the provisions of Section 29.351; and

Be It Further Resolved that the audit examination be made in accordance with generally accepted auditing standards, including such reviews and inspections of books, records and other underlying data and documents as are necessary to enable the independent certified public accountant performing the audit to reach an informed opinion on the condition and performance of the accounts, functions, programs, and management of the State Auditor's Office; and

SENATE CONCURRENT RESOLUTION NO. 11

Relating to designating every November as National American History and Founders Month

Whereas, as we approach our Nation's 250th anniversary in 2026, there is a clear need to empower Americans to be active citizens through greater understanding of our Nation's early history, its founders, and the civic duties within the American experience; and

Whereas, the period beginning with the onset of the American Revolution in 1775 through 1791 encapsulates the events and people responsible for establishing and shaping our country's future. The American Revolution (1775-1783) is one of the most defining events in modern history, both as the rebellion against Great Britain and as the creation of a self-governing and sovereign nation. The Declaration of Independence, the Constitution, and the Bill of Rights will forever set our Nation apart from all others. Our electoral system, our three branches of government in the form of an elected President, an elected Congress, and an independent Supreme Court are well-established and sustaining. These have all set a long enduring, unique and remarkable precedent that many other nations over the past two centuries have sought to replicate; and

Whereas, the purpose of National American History and Founders Month is to create a tradition of educating and celebrating the founding history of our country for all Americans. Furthermore, while there are holidays celebrating key events, leaders, and groups responsible for creating and shaping our Nation, there is no official recognition or formal commemoration of our Nation's early history, its founders and its governmental system. This new recognition and focus offers all Americans an occasion to appreciate the struggle to create a new nation,

the founders who pioneered how this new nation should be governed, and the civic duties of its citizens:

Now Therefore Be It Resolved that the members of the Missouri Senate, One-hundredth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby proclaim each November as “National American History and Founders Month”, and urge public officials at the state and local levels, educators in schools, colleges and universities, librarians, and all the people in the state of Missouri to observe this month with appropriate programs, ceremonies, and activities, and to reaffirm their devotion to the principles of freedom and the common history and heritage shared by all Americans; and

Be It Further Resolved that the Secretary of the Missouri Senate be instructed to send a properly inscribed copy of this resolution to the Governor for his approval or rejection pursuant to the Missouri Constitution.

CONCURRENT RESOLUTIONS

Senator Sater offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 12

Whereas, on April 19, 1775, the Continental Army engaged in the first battles of the Revolutionary War, known as the Battles of Lexington and Concord. The battles marked the outbreak of open armed conflict between the Kingdom of Great Britain and thirteen of its colonies on the mainland of British America to establish American independence; and

Whereas, the first Militia units, transforming into today's National Guard, were established in the Massachusetts Bay Colonies on December 13, 1636, armed to protect American citizens; and

Whereas, between 1775 and today over 41 million Americans have served in the Armed Forces of the United States, in addition to countless Militiamen between 1636 and 1775; and

Whereas, the United States has suffered casualties of over 1.4 million men and women, including scores of Missouri citizens, who have made the ultimate sacrifice defending democracy and freedom; and

Whereas, the families who have lost immediate relatives in the support of military operations, known as Gold Star Families, are also tragedies of war and armed conflict; and

Whereas, the people of Missouri wish to properly honor our military men and women who gave their lives in the service of our country, and thank their families for their sacrifice and bravery, recognizing that no one has given more for the nation than the families of the fallen; and

Whereas, war memorials perpetuate the appreciation and legacy of our fallen hero warriors and their families present and past and educate communities about the price paid for our way of life; and

Whereas, the purpose of the Gold Star Families Memorial Monument is to honor Gold Star families, relatives, and Gold Star children who have sacrificed and lost loved ones in the service of their country, and who stand as a stark reminder that freedom is not free; and

Whereas, it is appropriate to honor the fallen warriors and their families from the state of Missouri by recognizing the Gold Star Families Memorial Monument, which has been constructed and dedicated on the College of the Ozarks campus, as the official Gold Star Families Memorial Monument of the state of Missouri:

Now Therefore Be It Resolved that the members of the Missouri Senate, One-hundredth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby recognize the Gold Star Families Memorial Monument, at the College of the Ozarks campus in Point Lookout, Missouri, as the official Gold Star Families Memorial Monument of Missouri; and

Be It Further Resolved that the Missouri Department of Transportation is urged to prepare and establish appropriate highway signage to recognize the location and direction to the Missouri Gold Star Families Memorial Monument and the Missouri Vietnam Veterans Memorial; such highway signage and any additional signs shall be paid for by the College of the Ozarks; and

Be It Further Resolved that the Secretary of the Missouri Senate be instructed to prepare properly inscribed copies of this resolution for the president of the College of the Ozarks, the Veterans and Military Coalition of the Ozarks in Branson, Missouri, and the Missouri Department of Transportation.

Senator Emery offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 13

Whereas, for nearly two thousand years, the Bible has been a cornerstone of Western civilization, its content permeating nearly all aspects of culture, manifesting itself most notably in literature, music, art, drama, public discourse, and philosophy; and

Whereas, wisdom literature from the Bible, which has an emphasis on good character, has been taught for three thousand years but not for the last fifty years by accident; and

Whereas, forty studies have documented a correlation between improved school grades for children and the teaching of the biblical character of love, integrity, compassion, and self-discipline; and

Whereas, biblical references abound in the works of Western literature, including those of William Shakespeare and John Milton, and allusions to biblical themes and characters have been used effectively by writers as diverse as Dante Alighieri and Toni Morrison; and

Whereas, the Bible has been a source for public discourse and policy both past and present, and great leaders, including George Washington, Abraham Lincoln, and Martin Luther King, Jr., inspired entire generations by including biblical references and language in their speeches; and

Whereas, the English language itself is so filled with biblical vocabulary, themes, terms, and allusions that it cannot be fully understood and appreciated by individuals unfamiliar with the Bible, depriving them of much of the richness of the language; and

Whereas, a report on Bible literacy, which included findings from a Gallup Poll survey on American teenagers' knowledge of the Bible, found that American high school students are deficient in their academic knowledge of the Bible and that this deficiency is a limiting factor in their ability to study literature and to understand art, music, history, and culture; and

Whereas, United States Supreme Court Justice Tom Clark, in the 1963 case *Abington v. Schempp*, wrote that "it might well be said that one's education is not complete without a study of comparative religion or the history of religion and its relationship to the advancement of civilization." He further wrote "that the Bible is worthy of study for its literary and historic qualities. Nothing we have said here indicates that such study of the Bible or of religion, when presented objectively as part of a secular program of education, may not be effected consistently with the First Amendment"; and

Whereas, in a document entitled *The Bible & Public Schools, a First Amendment Guide*, twenty diverse groups, including the National School Boards Association, American Federation of Teachers, National Education Association, Christian groups, Jewish groups, and secular groups, all agreed that the Bible can and should be taught in public schools as long as such teaching is academic and not devotional in nature, demonstrates an awareness of the religious nature of the Bible but does not press students to accept religion, does not engage in the practice of religion, neither encourages or discourages differing religious views, and does not ask students to conform to any religious belief; and

Whereas, George Gallup polling and other research over the years has shown that more than two-thirds of the American public believe the Bible should be taught in public schools as part of the curriculum in literature courses, social studies courses, or both literature and social studies courses; and

Whereas, the general assembly realizes the academic advantage to students of a basic familiarity with the Bible:

Now Therefore Be It Resolved that the members of the Missouri Senate, One-hundredth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby:

(1) Encourage public high schools in Missouri to:

(a) Offer to students in grade nine or above:

a. An elective course on the Hebrew Scriptures (Old Testament) and their influence and an elective course on the New Testament and its influence; or

b. An elective course that combines the courses described above; and

(b) Require that all world literature courses include a three-week session on wisdom literature from the Bible, as has been done for three thousand years;

(2) Declare that the purpose of the courses described above is to teach students the biblical content, characters, and narratives of the Bible that are prerequisites to understanding contemporary society and culture, along with the role the Bible has played in the development of literature, art, music, culture, and public discourse;

(3) Urge the offering of the courses described above only if the courses:

(a) Do not endorse, favor, or promote, or disfavor or discourage, any particular religion or nonreligious faith or religious perspective;

(b) Are taught by state-certified literature or social studies teachers who have been selected without inquiry into their religious beliefs or lack thereof;

© Allow students to choose their preferred translation of the Hebrew Scriptures or the New Testament; and

(d) Award students the same number of course credits that are awarded for other courses of similar duration;

(4) Urge the offering of the courses described above only if school districts make teacher training available to teachers of the courses so that they are made aware of the best practices involved in teaching the Bible in a public school setting; and

(5) Declare that no state entity, school district, or local educational agency should prevent the teaching of courses or classes on the Bible so long as those courses meet guidelines consistent with the First Amendment; and

Be It Further Resolved that the Secretary of the Senate be instructed to prepare properly inscribed copies of this resolution for each school district in Missouri.

Journal of the Senate

FIRST REGULAR SESSION

ELEVENTH DAY—TUESDAY, JANUARY 29, 2019

The Senate met pursuant to adjournment.

President Kehoe in the Chair.

Reverend Carl Gauck offered the following prayer:

“The fear of the Lord is the beginning of Wisdom; all those who practice it have a good understanding.” (Psalm 111:10)

O God our Creator, our world expands our knowledge at an ever faster rate, making it more difficult for us to keep up with what we need to know and as we struggle to keep up remind us that wisdom is certainly more than knowledge for it comes from making mistakes and learning from them. Give us the humility to acknowledge before You our failures and learn from them. And let us repent for any harm we may have caused others and seek to not repeat our errors in judgment. So help us do more good with our lives and respond to opportunities that You send our way in a learned and faithful manner. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

Relating to transportation bonds.

Whereas, the General Assembly recognizes the need for the repair of bridges on the state highway system that are contained in the Highways and Transportation Commission's Statewide Transportation Improvement Program for years 2020 to 2023; and

Whereas, pursuant to Article IV, Section 30(b) of the Missouri Constitution, the Highways and Transportation Commission is authorized to issue state road bonds to fund the construction and reconstruction of the state highway system; and

Whereas, the General Assembly desires that the Highways and Transportation Commission issue state road bonds to finance the planning, designing, construction, reconstruction, rehabilitation, and significant repair of two hundred fifty bridges on the state highway system that are contained in the Statewide Transportation Improvement Program for 2020 to 2023; and

Whereas, the General Assembly wishes to assist the Highways and Transportation Commission by providing funds as first recourse for payment of the debt service for such bonds from General Revenue Fund revenues to the State Road Fund:

Now Therefore Be It Resolved that the members of the Missouri Senate, One-hundredth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby support the following:

Journal of the Senate

FIRST REGULAR SESSION

TWELFTH DAY—WEDNESDAY, JANUARY 30, 2019

The Senate met pursuant to adjournment.

President Kehoe in the Chair.

Reverend Carl Gauck offered the following prayer:

“Keep your heart with all diligence, for out of it flows the springs of life.” (Proverbs 4:33)

Gracious God: We acknowledge that the heart is seen by us as the seat of human emotions and it does us well to search it thoroughly to make sure all is in order for we know that our outward behavior often reflects what is going on in our hearts. Help us to weed out that which threatens our destruction and fill it with faith, hope and love for You and toward our family and friends and those we serve. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

The Journal for the previous day was read and approved.

The Joint Committee appointed to wait upon the Chief Justice of the Supreme Court, Zel M. Fischer, escorted the Chief Justice to the dais where he delivered the State of the Judiciary Address to the Joint Assembly:

**2019 STATE OF THE JUDICIARY
Missouri Chief Justice Zel M. Fischer**

Introduction

Thank you, Lieutenant Governor Kehoe, Secretary of State Ashcroft, President Pro Tem Schatz, Speaker Haahr, and members of this 100th General Assembly, the executive branch and the judiciary. On behalf of all of Missouri’s state judges, I am pleased to present you with this 46th State of the Judiciary.

The framers of our Constitution divided the power of government among three separate but co-equal branches, intending them to serve different purposes. But this separation does not mean we cannot listen to one another.

We know our partners in the legislative and executive branches are committed to doing the best job possible to make Missouri better. We are no different. The state of the judiciary is good.

Constitutionally critical to our system of government, the judiciary is designed to be different from the political and policymaking branches of government. Chief Justice John Roberts of the Supreme Court of the United States explained it this way: “We wear black robes to convey the notion that our individual views [and] personality do not have anything to do with the function we have to play in terms of coming to the correct decision on the law.”

You may not know one of his colleagues on our nation’s high court, Justice Clarence Thomas, had his first legal job right here in Missouri, across the street in the red brick building, as an assistant attorney general under Jack Danforth. Justice Thomas has said, “Judicial independence is critical to liberty and to justice. In our great country, the judiciary is not a puppet of those in power, nor is it the engine for pioneering social change. Rather, it is a safeguard against tyranny and an assurance of neutral arbiters for those seeking the protection of law.”

Public opinion tends to galvanize behind particular outcomes. Judges have a duty to resist that temptation. Our duty and our oath is not to be popular but to be faithful to the law.

Treatment courts

As I was here a couple of weeks ago listening to Governor Parson give his address, it occurred to me there are at least a few things Governor Parson and I have in common – we both call rural Missouri home, we are both probably more comfortable in cowboy boots than dress shoes, and neither of us has been accused of being soft on crime. But I was pleased to hear him commit in his state of the state address he would not build another prison while he is governor.

When I began practicing law three decades ago, we were all told the proper answer was to be tough on crime. But, as time has proven, being tough on crime is not necessarily being smart on crime. Our national incarceration rates have ballooned – and for many nonviolent offenders, we have failed to address their underlying issues of substance abuse and mental illness. Let’s save our prisons for those we are afraid of, not just mad at.

Over-incarcerating nonviolent offenders – especially drug and alcohol offenders – costs millions and is not curing the problem. We need to spend public funds where we see proven results. Often, what they really need – and what we can provide without compromising public safety – is treatment for substance abuse and mental illness.

This is why it is no longer enough for the courts to simply resolve cases. Instead, you and our citizens expect your courts to help change lives by breaking the cycle of crime among our nonviolent offenders and making them more productive. Since Missouri’s first treatment court was

founded more than 25 years ago, the Show-Me State has been showing everyone else how to do it ... and we continue to get better at it.

But as I explained in my address to you last year, citizens in some of our counties still lack access to a local treatment court. I thank Governor Parson for making treatment courts a priority of last fall's special session – and I thank you for passing this important legislation.

Now, we need your help funding the vital services our treatment courts can provide. The governor included in his budget recommendations a restoration of the rest of the core funding to the treatment courts we asked for last year but did not receive, plus nearly \$3.1 million in additional funding to help expand the reach of our treatment court services. Together, not only can we continue to be smart on crime, but, more importantly, we can continue to save money ... and lives.

Veterans courts

Some of our treatment courts focus on an offender's underlying issue, but one focuses on a unique population – our veterans. As you know, one of the primary rules of battle is not to leave anyone behind. But that guiding principle is just as important off the battlefield.

Due in part to the stress of combat or adjusting to life at home, some of our military men and women suffer from mental illness or addiction, and they may find themselves on the wrong side of the law. It is incumbent on us to make sure the justice system for which they have sacrificed recognizes their unique challenges and does not leave them behind.

Missouri now has veterans treatment courts available in three dozen counties, plus the cities of St. Louis and Kansas City. These unique programs use volunteer veterans and active-duty soldiers as mentors. Research shows veterans benefit the most with help from others who understand the military experience.

Our veterans treatment courts are a win-win for all Missourians – in addition to helping those who have served our country regain their lives, crime is reduced, public safety is improved, and we are able to better protect those who have protected us.

Military spouse rule

We also are honoring military families by finding a way for spouses of military personnel stationed in Missouri to practice law while they are here.

The process to become licensed to practice law in any state is rigorous, and for good reason – it's designed to protect the public. The bar exam is hard. But attorneys who are married to active duty military service members face the prospect of going through that process each time their spouses are relocated. You've heard the adage, "when one member joins, the whole family serves?" For some members of our active duty military, that means their attorney spouses must sit for a bar exam in every new state in which they find themselves ... or abandon their career ... or split up the military family. We realized this makes little sense.

So we created a pathway for military spouses who are licensed attorneys to practice law while they are in Missouri. Under the new rule – which took effect January 1 – lawyers with licenses in good standing from other jurisdictions, whose spouses are full-time active service members of the United States armed forces assigned to a duty station in Missouri or a contiguous state, can apply for temporary admission to practice law in Missouri.

Allowing these qualified attorneys to share their legal talents with our citizens while they are in our state will honor the sacrifice they make as military spouses and will serve Missourians well. This rule is already being utilized – just nine days after it took effect, we had an applicant. Her story exemplifies why we always need to look for ways to make our legal system better for those we serve.

Karen Towns is the daughter of a military service member and was born at an American air base overseas. She earned her law degree in North Carolina and was serving as associate chief counsel for the United States Food and Drug Administration when she married an officer in the United States Army. In fewer than a dozen years since then, he – and, therefore, she – have been relocated more than half a dozen times, to duty stations in Kansas, Kentucky, Maryland, Washington – and twice in Missouri.

Since July 2017, Karen's husband – Colonel Eric Towns – has been stationed at Fort Leonard Wood, where he serves as garrison commander. When they arrived in Missouri, the only way for her to become licensed to practice law here was to sit for another bar exam. Instead, she has been working as a non-attorney compliance officer at the Missouri University of Science and Technology in Rolla. But our new rule cut through the red tape that had been preventing her from using her legal skills to their fullest.

I am pleased to announce Karen has been granted temporary admission to practice law in Missouri. She and Colonel Towns are with us today – please join me in thanking them both for their important service.

Retired lawyer pro bono rule

We also have recognized we need to do more to provide equal access to civil justice. One of the fundamental purposes of your courts is to ensure access to justice for all, regardless of background, wealth, power or ideology. This ideal works well on paper but is hard to achieve in reality. The law is complex, and many individuals and businesses perceive they lack access to affordable legal services.

A legal system that serves only the well-to-do is neither justice *for* all – nor justice at all.

Missouri lawyers try to help fill the need. Each year, hundreds volunteer their time, unpaid, to help those who otherwise cannot afford an attorney. And Missouri is part of a national program – like an online version of a walk-in clinic – allowing people who cannot afford a lawyer

to get quick advice about a specific civil legal issue from a volunteer lawyer.

But by far the primary resource for those least able to afford an attorney comes from our state's legal service organizations. Unfortunately, the justice gap is much wider than these volunteer lawyers and legal service organizations can bridge on their own.

They need help. Pursuant to a new rule and new pilot project, retired lawyers who agree to provide solely free legal help through one of our state's legal aid organizations can apply annually to our Court to have their attorney enrollment fees waived.

As baby boomers enter retirement, many will be able to continue sharing their legal experience in meaningful and impactful ways. More importantly, our legal aid organizations will be able to help more low-income citizens throughout Missouri who need – but cannot afford – civil legal assistance.

Two people on the front lines of the battle to close the justice gap are here today. From Legal Aid of Western Missouri, its executive director, retired judge Joe Dandurand, and Latricia Scott Adams, who for 30 years has served as its volunteer attorney project director. Let's thank them for their service.

Pretrial release

Some common-sense solutions are relatively simple, like our new military spouse rule and retired lawyer pro bono rule. Others are more difficult to achieve, and a few require tough conversations, like dealing with pretrial detention. The problem is real. Too many who are arrested cannot afford bail even for low-level offenses and remain in jail awaiting a hearing. Though presumed innocent, they lose their jobs, cannot support their families and are more likely to reoffend.

We all share a responsibility to protect the public – but we also have a responsibility to ensure those accused of crime are fairly treated according to the *law*, and not their pocket books.

Missouri law sets the framework for how pretrial detention should work. Under the circumstances of each case, a judge must balance two constitutional imperatives – one to afford the accused an opportunity for pretrial release, and the other to insist on “sufficient sureties” the defendant will appear in court. Judges also must balance statutory considerations for protecting a crime victim, a witness and the community from a defendant who poses a danger to them.

During the past year, the Court brought together a whole host of experts – judges, prosecutors, defense attorneys, law professors and court officials – they spent countless hours identifying ways for improvement and working to devise common-sense modifications to our criminal justice system. As a result of this hard work, the Court has ordered *significant* changes to its rules governing pretrial release.

These changes – which will take effect July 1 – are extensive ... and meaningful. Here are some highlights:

- The court must start with non-monetary conditions of release and may impose monetary conditions only if necessary and only in an amount not exceeding that necessary to ensure safety or the defendant's appearance.
- The court may not order a defendant to pay any portion of the costs of any conditions of release without first considering how to minimize or whether to waive those costs.
- A court may order a defendant's pretrial detention only if it determines – by clear and convincing evidence – that no combination of non-monetary and monetary conditions will ensure safety of the community or any person.
- The new rule also limits how long a defendant may be detained without a court hearing, and ensures a speedy trial for those who remain in jail.

This new rule helps ensure the determinations – and conditions – of pretrial release are made with the best information available. We believe these changes will improve our criminal justice system.

Investing in Missouri's courts

In his state of the state address, Governor Parson said being a good leader is about your ability to make those around you better. So I am here to ask for your help. I know revenues are tight, you have important priorities to consider ... and I do not imagine you have very many constituents calling or e-mailing you begging for additional court funding.

But that does not mean your court system and the services we provide are not critical for the health of our state. Without the reliable availability of courts in our local communities, with fair and impartial judges who are well-versed in the law, and competent, professional court staff, your constituents' disputes might go undecided. Small business owners cannot afford undue delay in having their legal matters decided, and big businesses look for strong, stable courts when deciding where to employ large numbers of people.

Like so many others in state government, we in the Missouri courts have been streamlining our services, doing more with less for years, and we have proven we are a sound investment for Missouri tax dollars. To continue providing a high level of service – now and for future generations – we need additional investment in developing our workforce and improving our technological infrastructure.

Right now, our judicial education program operates on only 74 percent of the total amount of funding to which it is authorized by statute. But 74 percent does not allow us to offer as many in-person classes as we need, or to supplement those classes with as many web-based training

sessions as we should. It will cost just less than a half-million dollars to close this gap between funding authorized and funding appropriated. Although Governor Parson did not include this item in his recommendations, I ask you to actually fund what you have authorized us to spend on judicial education. That amount would allow our judicial education program to function at full strength, as it has in the past.

Governor Parson encouraged us to be honest about the challenges we face. Here is one – technology has become the way we all do business and expect to do business, but your courts struggle to meet the public’s 21st century expectations with 1990s resources.

The Missouri General Assembly in 1994 mandated the development of a statewide court automation system. But the \$7 fee has not changed in a quarter-century and does not generate enough money to sustain current functions. In fact, the fee only pays for a third of the technology necessary to provide the services Missourians have come to expect.

Missouri courts have been virtually paperless since 2014, and you and your constituents have come to rely on the benefits that electronic system makes possible: Case.net, Track This Case, Pay By Web and the electronic filing of cases. But what happens if we cannot sustain the technology that has become the way people do business in their courts?

We may find out by July 2021, when we anticipate the Missouri courts’ statutorily mandated system – built on 25-year-old technology – will be unable to receive critical system updates. We are building a replacement case management system, but at current funding levels, the new Show-Me Courts system – which includes municipal case processing – will not be finished in time.

Equal access to justice requires using technology to resolve disputes fairly and efficiently. We need to develop user-friendly, electronic systems to permit citizens to participate in routine court proceedings without missing work. We need to increase the functionality of Case.net to allow citizens to be fairly informed. Missourians expect your courts’ technology systems to join the 21st century, which will require increased and sustainable funding from general revenue.

Nonpartisan court plan

Technology is not the only thing changing rapidly. How different the faces are in this chamber than just a year ago. Most of our state office holders are in new positions, and more than 60 of you are new to the legislature.

We have experienced change as well. Nearly 60 trial judges just attended new judge orientation last week. Our appellate judicial commission has sent two panels to Governor Parson. Last fall, Governor Parson made his first appellate appointment, selecting Tom Chapman – the presiding judge from the 43rd circuit (spanning five counties in northwest Missouri) – to a vacancy on the Missouri Court of Appeals, Western District. Earlier this month, Governor Parson selected Robin Ransom – the presiding judge in St. Louis city – to be the newest appellate judge in our Eastern District.

I remain steadfast that Missouri’s nonpartisan court plan is the best method for selecting judges to our urban trial courts, appellate court and supreme court. We have a plaque in our building across the street commemorating the courage of the people of Missouri in amending their constitution in 1940 to adopt the Missouri court plan, making ours the first state in the nation to embrace judicial merit selection. Our foresight looks brilliant today, as the entire Supreme Court of West Virginia – which has direct partisan elections – faced impeachment last year, and the confirmation process for Justice Brett Kavanaugh’s nomination to the Supreme Court of the United States looked nothing like the advice and consent of the senate our founding fathers intended.

As a supreme court judge, the idea of presenting oneself as pro-something or con-something else undercuts a system in which judges are meant to be neutral arbiters of our citizens’ disputes and, ultimately, undermines the public’s trust and confidence in their courts. To paraphrase Chief Justice Roberts, judges do not sit on opposite sides of an aisle. They do not caucus in separate rooms. They do not serve one party or interest. They serve one nation. Or, in our instance, one Missouri.

I will end where I began, by explaining the judicial branch is designed to be different from the political and policymaking branches of government. Our judicial code of conduct requires us to refrain not only from actual bias but to minimize even the appearance of partiality.

Conclusion

While I know you take your responsibilities here in the Capitol seriously, as do I, do not forget those at home who support, encourage and pray for you daily. In the balcony, with other family members, are Julie, my wife of more than 34 years, and my mother Nancy. Thank you for your infinite love, support, encouragement and prayers.

Providing the family security is my former courtroom bailiff, my best friend, the best man at my wedding – he is also my father, Bob Fischer.

Everybody who knows my dad has at least one story – but I’ll close with this one. In the fall of 2008, Dad drove me down for my interview with Governor Matt Blunt. Once back in his pickup truck after the interview, I told Dad I thought Governor Blunt might actually appoint me to the Supreme Court of Missouri. He said, “Well, he ought to, but are you sure you want the position? You’re already a judge, and this is a four-and-a-half-hour drive from your wife and three of your four children still in high school.” I explained to Dad this was a position where you not only could make a paycheck, you could also make a difference. I concluded, it is not like I would be joining the circus. Then Dad – with his humble trademark grin – replied, “Are you sure?”

Thank you all, and may God Bless *you all*.

On motion of Senator Rowden, the Joint Session was dissolved and the Senators returned to the Chamber where they were called to order by President Kehoe.

Reverend Carl Gauck offered the following prayer:

“And all of you must clothe yourselves with humility in dealing with one another, for God opposes the proud, but gives grace to the humble.” (1 Peter 5:5b)

Gracious God, as we work through this day and the many things that demand our best help us deal with one another and those who need our help, in humble ways so we communicate our sincere desire to use our gifts to do what we can that is most helpful. And may we do so in ways that are most respectful to those we interact this day and every day. In Your Holy Name we pray. Amen.

SENATE CONCURRENT RESOLUTION NO. 15

Relating to the appointment and duties of commissioners to attend an Article V convention.

Whereas, it is necessary for each state to provide for the selection of commissioners to attend any Article V Convention:

Now Therefore Be It Resolved that the members of the Missouri Senate, One-Hundredth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby adopt the following procedures for the selection of commissioners to attend an Article V Convention:

Section 1. Selection of Commissioners

When a convention is called to propose amendments to the United States Constitution pursuant to Article V of the United States Constitution, the selection and participation of commissioners from Missouri to such convention shall be governed by this Resolution.

Section 2. Number, Eligibility, and Selection of Commissioners

A. Missouri shall have a number of commissioners equal to the number of congressional districts in the state at the time with one commissioner from each congressional district and a number of alternate commissioners equal to the number of congressional districts in the state at the time with one alternate commissioner from each congressional district.

B. Commissioners and alternates shall be citizens of the State of Missouri and shall otherwise meet the same qualifications necessary to hold office in the Missouri House of Representatives. Commissioners and alternates may include persons holding public office, subject to further limits described below, except that no person will be eligible who is:

- (1) A member of the United States House of Representatives or Senate;
- (2) An employee of the United States;
- (3) An employee or other representative of a contractor with the United States; or
- (4) An elected official holding a statewide office.

Commissioners and alternates are also subject to those existing ethics rules which apply to members of the General Assembly.

C. The House of Representatives and Senate shall select, by adoption of a concurrent resolution, the commissioners and alternates who meet the eligibility requirements described herein and who are submitted to the House of Representatives and the Senate by the Joint Legislative Committee as provided in Section 4 of this resolution. Of the commissioners, at least one-third shall not be sitting members of the General Assembly. Of the alternate commissioners, at least one-third shall not be sitting members of the General Assembly.

D. A majority of the commissioners shall constitute a quorum for all decisions made by the delegation, and no commissioner may give his or her vote by proxy or otherwise to any other commissioner. The commissioners shall select a chairperson to administer the work of the commissioners.

Section 3. Authority of Commissioners

A. Each commissioner and alternate shall, by oath or affirmation as a condition of participating in the convention, agree to faithfully and impartially discharge all the duties incumbent upon a commissioner, including the duty to abide by instructions established by concurrent resolution of the General Assembly for participation in the convention and the duty to act only within the scope of the General Assembly's application for the convention, if Missouri applied for the convention in which the commissioners are participating. Each commissioner and alternate shall further agree to immediately notify the Joint Legislative Committee if he or she believes that any Missouri commissioner or alternate has violated his or her oath or instructions while participating in the convention.

B. Prior to the Article V Convention, the General Assembly shall consider "Recommended Commissioner Instructions" presented to it by the Joint Legislative Committee as discussed further in Section 4 of this resolution, and shall by concurrent resolution provide duly approved instructions to the commissioners and alternates regarding the scope of matters they may consider and vote on at convention, including rules of procedure and proposed amendments. Such instructions may be changed by the General Assembly prior to or during the convention. These instructions shall include, but shall not be limited to:

1. An instruction that the commissioners shall not support any voting rule other than the rule whereby each state exercises one vote; and
2. An instruction that on all voting matters at the convention, the decision of a simple majority of the Missouri commissioners shall constitute a single vote for the State of Missouri.

C. Any vote cast by a commissioner or alternate at an Article V convention that is outside the scope of any of the following is an unauthorized vote, and is therefore void:

1. The instructions established by any concurrent resolution adopted under this Resolution or later amending resolutions.
2. Any limits identified in the Missouri General Assembly's application for the convention.

Section 4. Authorization for and Role of the Joint Legislative Committee

A. After or near the time an Article V convention is called, a Joint Legislative Committee shall be duly authorized by the General Assembly for the purposes described in this section. The Joint Legislative Committee shall be comprised of five members of the Senate appointed by the President Pro Tempore of the Senate, with three members from the majority party and two members from the minority party, and five members of the House appointed by the Speaker of the House of Representatives, with three members from the majority party and two members from the minority party, and shall have the initial task of recommending eligible commissioners to the House of Representatives and the Senate for consideration of appointment as commissioners. The Joint Legislative Committee shall submit at least three persons from each congressional district who are eligible, as provided in this resolution, to serve as a commissioner and at least three different persons from each congressional district who are eligible, as provided in this resolution, to serve as an alternate commissioner. The House of Representatives and the Senate shall select a commissioner and alternate commissioner from each congressional district from the names submitted by the Joint Legislative Committee. The Joint Legislative Committee shall also be charged with presenting "Recommended Commissioner Instructions" to the full General Assembly for consideration leading to a concurrent resolution as discussed in Section 3(B) of this resolution. Such Commissioner Instructions will define the scope of matters the Commissioners may consider and vote on at the Article V Convention, including rules of procedure and proposed amendments as discussed more fully in Section 3 of this resolution. All recommendations that secure a simple majority vote of the members present will be deemed approved "Recommended Commissioner Instructions" to be submitted to the full General Assembly for its consideration.

B. After commissioners have been selected, the Joint Legislative Committee may recall any commissioner and revoke such commissioner's authority. However, the Joint Legislative Committee may only recall and revoke the authority in the event the commissioner casts or attempts to cast an unauthorized vote as described in this Resolution. The Joint Legislative Committee shall also appoint one of the selected alternates to take the place of a commissioner so recalled. The Joint Legislative Committee shall promptly investigate any notice that a commissioner or alternate has cast an unauthorized vote or otherwise exceeded the scope of the General Assembly's application for the convention or the General Assembly's instructions to the commissioners. The Joint Legislative Committee shall act to ensure that the commissioners remain faithful to the terms of the convention application and the General Assembly's instructions. Before or during the Article V Convention, the Joint Legislative Committee may advise the commissioners on questions which arise regarding the scope of the convention and the legislative instructions to commissioners.

C. By concurrent resolution, the General Assembly may change or supersede any action of the Joint Legislative Committee or recall commissioners or alternates to the convention, or appoint new commissioners or alternates.

D. The Joint Legislative Committee shall be authorized to conduct its business via telephone or by electronic communication.

Section 5. Conflicts with Convention Rules or Procedures

Should the provisions of this Resolution conflict with the rules or procedures established by the Article V convention, the General Assembly may by concurrent resolution conform these provisions to such rules or procedures; and

Be It Further Resolved that this resolution be sent to the Governor for his approval or rejection pursuant to the Missouri Constitution.

Journal of the Senate

FIRST REGULAR SESSION

SIXTEENTH DAY—WEDNESDAY, FEBRUARY 6, 2019

The Senate met pursuant to adjournment.

Senator Hoskins in the Chair.

Senator Emery offered the following prayer:

In the book of Proverbs we read “A man’s heart plans his way, but the Lord determines his steps.” (Proverbs 16:9)

Heavenly Father, help us to put our trust in You to direct our way as we consider the needs of the those You have entrusted to us to serve - our families, our neighbors, and our constituents. Make us willing to lay aside our plans for Yours. Lead us on the path that prepares us for a future that You know already, but we have yet to discover. Help us to seek the truth as declared by Your written word and to discern how to obey it. We ask You for wisdom to make right decisions so we can pursue with our hearts and strength the path You have devised and chosen for us. I pray in Jesus name; amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

The Journal of the previous day was read and approved.

Senator Rowden announced photographers from Columbia Missourian, Missouri School of Journalism and KOMU-TV were given permission to take pictures in the Senate Chamber.

The following Senators were present during the day’s proceedings:

REMONSTRANCES

Senator Rowden offered the following remonstrance:

SENATE REMONSTRANCE NO. 1

Whereas, the University of Missouri-Columbia has a long tradition of athletic achievement in many sports and is a member of the National Collegiate Athletic Association (NCAA); and

Whereas, student-athletes at Mizzou spend countless hours maintaining a balance at achieving both academic and athletic excellence and should be commended for their dedication and work ethic; and

Whereas, the athletic department at Mizzou became aware of irregularities involving a tutor for some of the student-athletes; and

Whereas, in response to such awareness, the athletic department and administration immediately ended any association with the tutor and began an internal investigation and engaged in a joint investigation with the NCAA; and

Whereas, the athletic department was open and forthright with both the NCAA and the Southeastern Conference about the allegations; and

Whereas, unlike other member institutions of the NCAA, Mizzou did not try to obstruct the NCAA investigation and, in fact, cooperated fully with the NCAA; and

Whereas, there was no evidence in the resulting NCAA investigation that any administrator or university personnel in any way pressured the tutor into completing the student-athletes' work; rather that the tutor acted of her own accord and the NCAA report said as much when it was written that "Missouri did the right thing" in cooperating with its investigation and found fault with the tutor who received a ten year show-cause penalty; and

Whereas, despite the lack of any evidence of systemic problems in the athletic department and having the full cooperation and openness of the University, the NCAA Division I Committee on Infractions handed down a disproportionate penalty to the University of Missouri football, baseball, and softball programs, including a ban on post season play for their upcoming seasons as well as limitations on scholarships and recruiting and vacation of some wins and records; and

Whereas, the penalty is inconsistent and arbitrary when compared with the penalties handed down to other member institutions for far worse offenses and where the institution did not cooperate with the investigation; and

Whereas, this unjust and harsh penalty demonstrates the continued erosion of the credibility of the NCAA as a governing body for collegiate athletics; and

Whereas, if this unjust and harsh penalty is not reversed upon appeal by the University of Missouri, then serious questions should be asked about the continued need for the NCAA; and

Whereas, because of these onerous, unfair, and overly punitive sanctions, student-athletes who were not at fault in the least for the actions of the tutor will be the ones to suffer the punishment and deleterious effect on their collegiate athletic careers; and

Whereas, the decision of the NCAA tells other collegiate programs that doing the right thing and cooperating with an investigation should be the last resort; and

Whereas, the decision will erode what little faith many people had left in the ability of the NCAA to oversee collegiate athletics; and

Whereas, it is the duty of this body to speak out and demand the NCAA reverse its decision regarding the University of Missouri:

Now, Therefore, Be It Resolved by the members of the Missouri Senate, One-Hundredth General Assembly, First Regular Session, hereby remonstrate against the NCAA for its unfair and harsh sanctioning of the athletic department of the University of Missouri-Columbia; and

Be It Further Resolved that the Secretary of the Senate be instructed to prepare a properly inscribed copy of this resolution for Mark Emmert, President of the NCAA.

Journal of the Senate

FIRST REGULAR SESSION

EIGHTEENTH DAY—MONDAY, FEBRUARY 11, 2019

The Senate met pursuant to adjournment.

President Kehoe in the Chair.

Reverend Carl Gauck offered the following prayer:

“Get wisdom; get insight: do not forget, nor turn away from the words of my mouth.” (Proverbs 4:5)

Almighty God we thank You for the safe travel to this place, as You watched our going out and coming in. You seek ways to teach us that we can improve our lives and actions by learning from Your word and You help us to learn from our experiences, in the ups and downs of life. May we grow in wisdom from such moments and gain insight so we may better serve those who elected us and those with whom we make contact this week. May Your Holy Spirit guide our hearts and minds so what we say and do reflects what we have learned and put into action every day. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

The Journal for Thursday, February 7, 2019 was read and approved.
