AN ACT

To amend chapter 191, RSMo, by adding thereto one new section relating to supplemental newborn screening.

Be it enacted by the General Assembly of the state of Missouri, as follows:

Section A. Chapter 191, RSMo, is amended by adding thereto one new section, to be
2 known as section 191.332, to read as follows:

191.332. 1. By January 1, 2002, the department of health shall, subject to
2 appropriations, expand the newborn screening requirements in section 191.331 to include
3 potentially treatable or manageable disorders, including cystic fibrosis, galactosemia,
4 biotinidase deficiency, congenital adrenal hyperplasia, maple syrup urine disease (MSUD)
5 and other amino acid disorders, glucose-6-phosphate dehydrogenase deficiency (G-6-PD),
6 MCAD and other fatty acid oxidation disorders, methylmalonic acidemia, propionic
7 acidemia, isovaleric acidemia and glutaric acidemia Type I.
8 2. The department of health may promulgate rules to implement the provisions of
9 this section. No rule or portion of a rule promulgated pursuant to the authority of this
10 section shall become effective unless it has been promulgated pursuant to chapter 536,
11 RSMo.
