

HB 188 -- Methamphetamine Relief Task Force

Sponsor: Munzlinger

This bill establishes the Missouri Sheriff Methamphetamine Relief Task Force (MoSMART), which will consist of five sheriffs appointed by the Governor. The task force will administer a special fund, also created in the bill, which will provide grant money to sheriff's departments that are participating in a multi-jurisdictional drug task force and to sheriff's departments in counties that have been designated as high drug trafficking areas by the federal Office of National Drug Control Policy. MoSMART will be funded by federal grants and state appropriations. The Department of Public Safety will monitor the granting process.
