

HB 388 -- GEOGRAPHICAL INFORMATION SYSTEMS (Riback Wilson, 25)

This bill extends authority to develop geographic information systems to St. Joseph, Columbia, Lee's Summit, and all first classification counties without a charter form of government. Under current law, only Springfield and Greene County have the ability to develop geographical information systems and to charge for the use of the systems. Geographical information systems link maps with other data about an area.

FISCAL NOTE: No impact on state funds.
