

HB 415 -- Practice of Chiropractic

Co-Sponsors: Portwood, Avery, Dempsey, Stefanick, Dixon,
Cunningham (86), Wright

This bill revises the definition of "chiropractic" to include the diagnosis and treatment of kinetically altered articulations and diseases of the body, along with restoring and maintaining normal physiological musculoskeletal function and health.

The bill further revises the definition to allow chiropractic physicians to practice methods and order appropriate clinical care that is commonly taught by chiropractic programs in universities accredited by the State Board of Chiropractic Examiners.
