

HB 740 -- Petroleum Liquid Storage Systems

Co-Sponsors: Pratt, Dougherty, Dusenberg

This bill requires contractors that install, repair, remove, or close petroleum liquid storage systems to file with the Department of Agriculture's Division of Weights and Measures. Documents filed must include proof of commercial, pollution liability, and professional liability insurance or liquid assets of at least \$1 million and proof of compliance with applicable labor safety standards. Those who fail to file are not eligible to receive payments from the Petroleum Storage Tank Insurance Fund. Installing tank linings, tightness testing, and all work on systems with capacities of 110 gallons or less are exempt.
