4 for a school year as were lost in the previous school year, which days shall be in addition to the
5 school calendar days required for a school term by section 171.031.

6 2. If, after using the make-up days referred to in subsection 1, a district does not meet
7 the requirement for a term of one hundred seventy-four days of actual pupil attendance, it shall
8 be required to make up no more than eight additional days of school lost or canceled due to
9 inclement weather and half the number of days lost or canceled in excess of eight days.

5 residential care facility I, residential care facility II, intermediate care facility and skilled nursing
6 facility beds exceeds ninety percent for at least four consecutive calendar quarters, in a particular
7 county, and within a fifteen-mile radius of the proposed facility, and the facility otherwise
8 appears to qualify for a certificate of need. The department's certification that there is no need
9 for additional beds shall serve as the final determination and decision of the committee. In
10 determining ninety percent occupancy, residential care facility I and II shall be one separate
11 classification and intermediate care and skilled nursing facilities are another separate
12 classification.

26 criteria and standards for long-term care beds.

27 [7.] 6. Sections 197.300 to 197.366 shall not be construed to apply to litigation pending

31 [8.] 7. Notwithstanding any other provision of this chapter to the contrary:

32 (1) A facility licensed pursuant to chapter 198, RSMo, may increase its licensed bed

38 b. Has maintained a ninety-percent average occupancy rate for the previous six quarters;

39 (c) Has made an effort to purchase beds for eighteen months following the date the letter
40 of intent to expand is submitted pursuant to paragraph (a) of this subdivision. For purposes of
41 this paragraph, an "effort to purchase" means a copy certified by the offeror as an offer to
42 purchase beds from another licensed facility in the same licensure category; and

43 (d) If an agreement is reached by the selling and purchasing entities, the health facilities
44 review committee shall issue a certificate of need for the expansion of the purchaser facility upon
45 surrender of the seller's license; or

46 (e) If no agreement is reached by the selling and purchasing entities, the health facilities
47 review committee shall permit an expansion for:

48 a. A facility with more than forty beds may expand its licensed bed capacity within the
49 same licensure category by twenty-five percent or thirty beds, whichever is greater, if that same
50 licensure category in such facility has experienced an average occupancy of ninety-three percent
51 or greater over the previous six quarters;

52 b. A facility with fewer than forty beds may expand its licensed bed capacity within the
53 same licensure category by twenty-five percent or ten beds, whichever is greater, if that same
54 licensure category in such facility has experienced an average occupancy of ninety-two percent
55 or greater over the previous six quarters;

56 c. A facility adding beds pursuant to subparagraphs a. or b. of this paragraph shall not
57 expand by more than fifty percent of its then licensed bed capacity in the qualifying licensure
58 category;

59 (2) Any beds sold shall, for five years from the date of relicensure by the purchaser,
60 remain unlicensed and unused for any long-term care service in the selling facility, whether they
61 do or do not require a license;

62 (3) The beds purchased shall, for two years from the date of purchase, remain in the bed
63 inventory attributed to the selling facility and be considered by the department of social services
64 as licensed and available for purposes of this section;

65 (4) Any residential care facility licensed pursuant to chapter 198, RSMo, may relocate
66 any portion of such facility's current licensed beds to any other facility to be licensed within the
67 same licensure category if both facilities are under the same licensure ownership or control, and
68 are located within six miles of each other;

69 (5) A facility licensed pursuant to chapter 198, RSMo, may transfer or sell individual
70 long-term care licensed beds to facilities qualifying pursuant to paragraphs (a) and (b) of
71 subdivision (1) of this subsection. Any facility which transfers or sells licensed beds shall not
72 expand its licensed bed capacity in that licensure category for a period of five years from the date
73 the licensure is relinquished.

74 [9.] **8.** Any existing licensed and operating health care facility offering long-term care
75 services may replace one-half of its licensed beds at the same site or a site not more than thirty
76 miles from its current location if, for at least the most recent four consecutive calendar quarters,
77 the facility operates only fifty percent of its then licensed capacity with every resident residing
78 in a private room. In such case:

79 (1) The facility shall report to the division of aging vacant beds as unavailable for
80 occupancy for at least the most recent four consecutive calendar quarters;

81 (2) The replacement beds shall be built to private room specifications and only used for
82 single occupancy; and

83 (3) The existing facility and proposed facility shall have the same owner or owners,
84 regardless of corporate or business structure, and such owner or owners shall stipulate in writing
85 that the existing facility beds to be replaced will not later be used to provide long-term care
86 services. If the facility is being operated under a lease, both the lessee and the owner of the
87 existing facility shall stipulate the same in writing.

88 [10.] 9. Nothing in this section shall prohibit a health care facility licensed pursuant to
89 chapter 198, RSMo, from being replaced in its entirety within fifteen miles of its existing site so
90 long as the existing facility and proposed or replacement facility have the same owner or owners
91 regardless of corporate or business structure and the health care facility being replaced remains
92 unlicensed and unused for any long-term care services whether they do or do not require a license
93 from the date of licensure of the replacement facility.

11 general revenue fund in accordance with other provisions of law.]

 [30.900. 1. There is hereby created in the treasury a fund to be known as
2 "The Revenue Sharing Trust Fund". All funds received by this state from the federal
3 government under the provisions of the State and Local Fiscal Assistance Act of

13 3. The state auditor shall audit and report on the expenditure of money from
14 this fund in the same manner as other state funds.]

2 [32.051. The director of the department of revenue shall make an estimate
3 of the amount of tax revenues generated under the provisions of this section and
4 section 143.072, RSMo, and section 144.800, RSMo. The director of the department
5 of revenue shall also make a separate accounting of the amount of income tax refunds
6 and reduced individual income tax revenues necessitated by decisions of the Supreme
7 Courts of the United States and the state of Missouri, relating to taxation of pension
8 benefits. If the director of the department of revenue determines the amount of
9 revenues finally generated under the provisions of this section and section 143.072,
10 RSMo, and section 144.800, RSMo, exceeds the amount of individual income taxes

13 income tax revenues pursuant to the decisions of the Supreme Courts of the United
14 States and the state of Missouri, he shall deposit the excess amount into the budget
15 stabilization fund created pursuant to section 33.285, RSMo. The director of the
16 department of revenue shall quarterly submit in writing a report to the senate and the
17 house of representatives, and the commissioner of administration, describing the
18 methodology used in arriving at the estimate of the amount of tax revenues generated
19 under the provisions of this section and section 143.072, RSMo, and section 144.800,
20 RSMo, and the amount of income tax refunds and reduced individual income tax
revenues issued to taxpayers pursuant to the Supreme Courts' decisions.]

2 [32.380. 1. Notwithstanding the provisions of any other law to the contrary,
3 with respect to taxes administered by the department of revenue, an amnesty from the
4 assessment or payment of all penalties, additions to tax, and interest shall apply with
5 respect to unpaid taxes or taxes due and owing reported and paid in full from August
6 1, 2002, to October 31, 2002, regardless of whether previously assessed, except for
7 penalties, additions to tax, and interest paid before August 1, 2002. The amnesty
8 shall apply only to state tax liabilities due or due but unpaid on or before December
9 31, 2001, and shall not extend to any taxpayer who at the time of payment is a party
10 to any criminal investigations or to any civil or criminal litigation that is pending in
11 any court of the United States or this state for nonpayment, delinquency, or fraud in
12 relation to any state tax imposed by the state of Missouri.

13 2. Upon written application by the taxpayer, on forms prescribed by the
director of revenue, and upon compliance with the provisions of this section, the

14 department of revenue shall not seek to collect any penalty, addition to tax, or interest
15 which may be applicable. The department of revenue shall not seek civil or criminal
16 prosecution for any taxpayer for the taxable period for which the amnesty has been
17 granted.

18 3. Amnesty shall be granted only to those taxpayers who have applied for
19 amnesty within the period stated in subsection 1 of this section, who have filed a tax
20 return for each taxable period for which amnesty is requested, who have paid the
21 entire balance due within sixty days of approval by the department of revenue, and
22 who agree to comply with state tax laws for the next three years from the date of the
23 agreement. No taxpayer shall be entitled to a waiver of any penalty, addition to tax,
24 or interest pursuant to this section unless full payment of the tax due is made in
25 accordance with rules and regulations established by the director of revenue.

26 4. If a taxpayer elects to participate in the amnesty program established
27 pursuant to this section as evidenced by full payment of the tax due as established by
28 the director of revenue, that election shall constitute an express and absolute
29 relinquishment of all administrative and judicial rights of appeal. No tax payment
30 received pursuant to this section shall be eligible for refund or credit.

31 5. Nothing in this section shall be interpreted to disallow the department of
32 revenue to adjust a taxpayer's tax return as a result of any state or federal audit.

33 6. All tax payments received as a result of the amnesty program established
34 pursuant to this section shall be deposited in the schools of the future fund created
35 pursuant to section 163.005, RSMo, other than revenues earmarked by the Missouri
36 Constitution.

37 7. The department may promulgate such rules or regulations or issue
38 administrative guidelines as are necessary to administer the provisions of this section.
39 No rule or portion of a rule promulgated pursuant to the authority of this section shall
40 become effective unless it has been promulgated pursuant to chapter 536, RSMo.
41 Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that
42 is created under the authority delegated in this section shall become effective only if
43 it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if
44 applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are
45 nonseverable and if any of the powers vested with the general assembly pursuant to
46 chapter 536, RSMo, to review, to delay the effective date or to disapprove and annul
47 a rule are subsequently held unconstitutional, then the grant of rulemaking authority
48 and any rule proposed or adopted after August 28, 2002, shall be invalid and void.]

 30 body of the city shall have no power to impose the sales tax authorized in this section

31 unless and until the governing body of the city shall again have submitted another
32 such proposal and the proposal is approved by the requisite majority of the qualified
33 voters voting thereon. Any subsequent election shall not be excused from the
34 requirements of chapter 115, RSMo.

35 3. After the effective date of any tax imposed under the provisions of this
36 section, the director of revenue shall perform all functions incident to the

38 as provided in sections 94.500 to 94.550, and the director of revenue shall collect in

42 and reported upon such forms and under such administrative rules and regulations as
43 may be prescribed by the director of revenue. If a majority of the votes cast on the

49 4. The sales tax may be approved at a rate of one-eighth of one percent,
50 one-fourth of one percent, three-eighths of one percent or one-half of one percent, but
51 in no event shall the sum of the tax imposed by this section and section 94.577, in
52 one or more elections, exceed one-half of one percent of the receipts from the sale

54 adopting such tax, if such property and services are subject to taxation by the state
55 of Missouri under the provisions of sections 144.010 to 144.525, RSMo. Whether
56 approved at one or more elections, the flood relief sales tax rate may not exceed the
57 available taxing authority of the city.

2 [144.041. In addition to the exemptions granted under the provisions of
3 section 144.030, there is hereby exempted from any sales and use taxes levied by the
4 state and any sales taxes levied by any political subdivision of this state as otherwise
5 authorized by law any charges for admissions, as defined in section 144.010, to any
6 of the games of the 1994 World Cup Soccer Tournament which are held in any
7 county of the first classification having a charter form of government which contains
8 all or any part of a city with a population of at least three hundred fifty thousand
inhabitants.]

2 [152.032. 1. Fifty percent of all taxes collected by the director of revenue
3 under the provisions of this chapter shall be deposited in the state treasury to the
4 credit of a fund to be known as the "Grade Crossing Fund", which is hereby created
5 and established for the purpose of providing revenues to protect the public against
6 hazards existing at the crossings of public roads, streets, and highways with railroad
7 tracks. Whenever the motor carrier and railroad safety division of the department of
8 economic development, pursuant to section 389.640, RSMo, orders the installation,
9 construction or reconstruction of automatic signals or other safety devices or other
10 safety improvements at crossings at grade of railroads and public roads, highways or
11 streets, the cost thereof, which the division apportions against the state, county,
12 municipality or other public authority in interest, shall be paid out of the grade
13 crossing fund; provided, however, that when any part of such cost can be paid from
14 funds available under any federal or federal aid highway act such part shall not be
15 paid from the grade crossing fund; and provided, further, that no more than ninety
16 percent of the cost of protecting any grade crossing shall be paid out of the grade
17 crossing fund. The motor carrier and railroad safety division of the department of
18 economic development shall, in cooperation with other governmental agencies of the
19 state, determine if any such cost can be paid from funds available under any federal
20 or federal aid highway act. An order of the motor carrier and railroad safety division
21 of the department of economic development for the payment of any such cost from
22 the grade crossing fund shall be authority for the state treasurer to pay out of that
23 fund to the person, firm, or corporation entitled thereto under the division's order the
24 amount so determined to be paid from said fund. However, such payments annually
25 shall not exceed in any one county an amount equal to the distribution as set forth in
26 section 152.050, unless the motor carrier and railroad safety division of the
27 department of economic development makes a specific finding of facts and
conclusions of law that a situation highly dangerous to the public does exist.

28 2. The unexpended balance in the grade crossing fund at the end of each
29 fiscal year shall not revert to the general revenue fund as provided in section 33.080,
30 RSMo, but shall accumulate from year to year.]

mean:

- 3 (1) "Application cycle", the period of time each year, as determined by the

- 15 (6) "Energy conservation project" or "project", the design, acquisition and
16 installation of one or more energy conserving devices, measures or modifications to
17 a building or facility to reduce energy consumption or to allow for the use of

20 or shall accrue from energy savings due to implementation of an energy conservation
21 project;
- 22 (8) "Estimated simple payback", the estimated cost of a project divided by
23 the estimated energy cost savings;
- 24 (9) "Facility", any major energy using system owned and operated by a
25 district, whether or not housed in a building;

40 estimated simple payback is in a fraction of a year;
- 41 (15) "School board", the board of education having general control of the
42 property and affairs of any seven-director, urban or metropolitan school district as
43 defined in section 160.011;

 47 identifies and specifies the quantity of energy savings and related energy cost savings
 48 that are likely to result from the implementation of one or more energy conservation
 49 measures;

50 (18) "Unobligated balance", that amount in the fund that has not been
 51 dedicated to any district at the end of each state fiscal year.]

2 [160.302 1. At the direction of the school board, school districts may submit
 3 an application for loan funds to the department for the purpose of financing all or a
 4 portion of the costs incurred in implementing an energy conservation project in a
 5 district owned and operated building or facility. The application shall be
 6 accompanied by a technical assistance report. The application and the technical
 7 assistance report shall be in such form and contain such information as prescribed by
 8 the department.

9 2. All applications shall be assigned a "payback score" derived from the
 10 application review performed by the department. Applications shall be selected for
 11 loans beginning with the lowest payback score and continuing in ascending numeric
 12 order to the highest payback score until all available loan funds have been obligated
 13 within any given application cycle. In no case shall a loan be made to finance an
 14 energy project with a payback score of less than six months or more than five years.
 15 Applications may be approved for loans only in those instances where the school
 16 district has furnished the department information satisfactory to assure that the
 17 project cost will be recovered through energy cost savings during the repayment
 18 period of the loan. In no case shall a loan be made to a district unless two-thirds of
 19 the members of the school board vote to approve the loan agreement.

20 3. The department of elementary and secondary education shall be provided
 21 a summary of all proposed school district projects for review within fifteen days from
 22 the application deadline. Once projects have been reviewed and selected for loans
 23 by the department of natural resources, the department of elementary and secondary
 24 education shall have thirty days to certify that those projects selected for loans are
 25 consistent with related state programs for educational facilities. No loan shall be
 26 provided to a school district until and unless the department of elementary and
 27 secondary education has issued such certification in writing to the department of
 natural resources.]

2 [160.304. Annually, at the conclusion of each state fiscal year, each school
 3 district which has received a loan pursuant to the provisions of sections 160.300 to
 4 160.328 shall compute the actual energy cost savings resulting from the
 5 implementation of the energy conservation project financed by the loan. Energy cost
 savings shall be calculated in the manner prescribed by the department.]

2 [160.306. 1. Each school district to which a loan has been made under
 3 sections 160.300 to 160.328 shall repay such loan, with interest, in semiannual
 4 payments. The rate of interest shall be the rate required by the funding source. The
 5 number, amounts and timing of the semiannual payments shall be as determined by
 the department. 2. Any school district which receives a loan through the

6 provisions of sections 160.300 to 160.328 shall annually budget an amount which is
7 at least sufficient to make the semiannual payments required under this section.

8 3. The district shall not raise the funds needed to make the semiannual loan
9 payment by the levy of additional taxes and shall not provide for such payment by a
10 charge against any established district fund or account. The semiannual loan
11 payments shall be derived solely from energy cost savings resulting from the
12 implementation of the project. In the event that energy cost savings resulting from
13 the project fail to equal or exceed the amount of the semiannual payment, the district
14 and the department shall renegotiate the repayment period in such a manner as to
15 assure that the semiannual payment amount does not exceed the actual energy cost
16 savings resulting from the project.

18 in accordance with subsection 5 of this section within sixty days of the due date of
19 such payment, the department of natural resources shall notify the department of
20 elementary and secondary education to deduct such payment amount from the next
21 regular apportionment of state funds to that district. That amount shall then
22 immediately be deposited in the energy set-aside loan fund.

23 5. All districts having received loans pursuant to sections 160.300 to 160.328

3 160.300 to 160.328 shall establish on its books an energy conservation loan account

5 repaid. Information sufficient to indicate the receipt and expenditure of all funds
6 authorized and allowed under the terms of the loan shall be entered in this account.

6 provisions of sections 160.300 to 160.328.

7 2. All moneys duly authorized and appropriated by the general assembly, all
8 moneys received from federal funds, gifts, bequests, donations or any other moneys
9 so designated, all moneys received pursuant to section 160.306, and all interest

11 to and deposited in the energy set-aside program fund.

12 3. All principal deposits, as authorized in subsection 1 of this section, and all
13 repayments of loans by school districts, as specified in subsection 5 of section
14 160.306, to the energy set-aside program fund shall be available to be issued and
15 reissued for loans as authorized by sections 160.300 to 160.328. After appropriation
from the general assembly, the department may expend interest earned on the energy

16 set-aside program fund for the administration of the school loan program in sections
17 160.300 to 160.328.

18 4. The commissioner of administration shall disburse such moneys at such
19 times from the fund as are authorized by the department pursuant to section 160.302.

20 5. Except as otherwise provided in sections 160.300 to 160.328, the
21 provisions of section 33.080, RSMo, requiring the transfer of unexpended funds to
22 the ordinary revenue funds of the state shall not apply to funds in the energy set-aside
23 program fund.]

[160.312. 1. A loan made pursuant to sections 160.300 to 160.328 shall be
2 used only for the purposes specified in an approved application. In the event the
3 department determines that a loan has been expended for purposes other than those
4 specified in an approved application, it shall immediately request the return of the
5 full amount of the loan. If a school district fails to remit repayment to the department
6 within sixty days of notification, collection shall be made through the provisions
7 outlined in subsection 4 of section 160.306.

8 2. The department may, at its discretion, audit the expenditure of any loan
9 made pursuant to sections 160.300 to 160.328 or the computation of any payment
10 made pursuant to section 160.306.]

3 necessary for the administration of sections 160.300 to 160.328.]

[160.316. After three years from August 13, 1986, and every year thereafter,
2 the department shall calculate the average unobligated balance of general revenue
3 moneys in the fund. The department shall annually notify the state treasurer as to the
4 amount of the average unobligated balance of general revenue moneys. The state
5 treasurer shall transfer from the fund to the general revenue fund of the state an
6 amount equal to the average unobligated balance of general revenue moneys less ten
7 thousand dollars.]

[160.318. All moneys from sources other than state appropriations which are
2 specified to be used for purposes identified under the provisions of sections 160.300
3 to 160.328 shall be handled in the same manner as moneys received through state
4 appropriations unless otherwise required in agreements or regulations with the
5 sources from which such moneys are obtained. The department director shall certify
6 that the use of all such moneys and any required agreements or regulations are
7 consistent with the intent of sections 160.300 to 160.328, and all other state and

- 14 3. The proceeds of the sale of any bonds issued under sections 160.300 to
15 160.328 shall be paid into the state treasury to the credit of the energy set-aside
16 program fund established in section 160.310.
- 17 4. The revenue bonds may be issued pursuant to a resolution issued by the
18 department and the authority after proper authorization through an appropriation
19 authorizing expenditures out of the proceeds of the sale of the bonds which
20 appropriation shall be chargeable to the energy set-aside program fund.
- 21 5. Bonds issued pursuant to sections 160.300 to 160.328 are not an
22 indebtedness of the state of Missouri, or the department and the authority or its
23 employees and are not an indebtedness within the meaning of any constitutional or
24 statutory limitation on the incurring of indebtedness. Such bonds shall bear on the
25 face thereof the following: "This is a revenue bond and not a general obligation

3 of such denomination and shall bear such rate of interest, not to exceed fourteen
4 percent per annum, from the date of issuance, as the department and the authority
5 may determine. The bonds may be either serial or term bonds.
- 6 2. Serial bonds may be issued with or without the reservation of the right to
7 call them for payment and redemption in advance of their maturity, upon giving such
8 notice, and with or without a covenant requiring the payment of a premium in the
9 event of payment and redemption prior to maturity as the department and the
10 authority may determine.
- 11 3. Term bonds shall contain a reservation of the right to call them for
12 payment and redemption prior to maturity at such time and upon the giving of such

16 obtainable after giving such reasonable notice of the sale as the department and the
17 authority may determine; except that, no bonds shall be sold for less than ninety-five
18 percent of their par value, and accrued interest.
- 19 5. The bonds may be sold to the United States of America or to any of its

23 the meaning of the law merchant and the negotiable instruments law, and the interest
thereon shall be exempt from income taxes under the laws of this state.]

2 [160.324. 1. When not inconsistent with the provisions of sections 160.300
3 to 160.328, the department and the authority are authorized to prescribe the form,

11 issued, and may enforce the performance of any covenant made by the department
and the authority in the issuance of the bonds.]

2 [160.326. 1. The revenue bonds issued pursuant to sections 160.300 to
3 160.328 may be refunded, in whole or in part, under any of the following
4 circumstances:

5 (1) When any of the bonds have by their terms become due and payable and
6 there are not sufficient funds in the interest and debt service fund to pay the bonds
7 and the interest thereon;

8 (2) When any of the bonds are by their terms callable for payment and
9 redemption in advance of the date of their maturity and shall have been duly called

21 payments outlined in this section if such qualification is due to enrollment decreases
22 in the district that have occurred in grades kindergarten to three.

23 4. Nothing in this section shall be construed to preclude the teaching staff
24 within a school from grouping pupils in alternative ways for instruction, including,
25 but not limited to, team teaching, class-within-a-class, cooperative learning, and
26 ungraded approaches to teaching; provided, however, that such alternative
27 instructional groupings are not used in grade levels not affected by the program

19 in economics and personal finance in which a passing grade shall be achieved by
20 each public school student prior to graduation from high school;

21 (5) Recommendations relating to establishing appropriate undergraduate
22 preparation requirements for teacher certification for teachers from kindergarten
23 through the twelfth grade that will enable new teachers to meet these increased
24 expectations in economics and personal finance education;

25 (6) Recommendations relating to appropriate changes in state laws, rules, or
26 regulations that are necessary to implement the stated purpose of this study.

 5 behalf of the system such grants or appropriations as may be made to them or it by
 6 the general assembly of Missouri and to repay and return the same to the state
 7 treasury when funds of the system sufficient therefor are available, but any funds
 8 appropriated by the general assembly shall be repaid within two years after October
 13, 1965.]

2 [173.120. 1. The "State Guaranty Student Loan Fund" is established and
 3 shall consist of money appropriated to it by the general assembly, charges, gifts,

 5 assisting students in financing their education. Notwithstanding the provisions of
 6 section 33.080, RSMo, no portion of the fund shall be transferred to the general

 14 defaulted guaranteed loans shall be paid promptly into the state treasury and credited
 15 to the fund.

3. The fund shall be administered by the department.]

81 I. The Commission may establish committees and hire staff as it deems

If any compacting state shall at any time default in the performance of any of its obligations, assumed or imposed, in accordance with the provisions of this Compact, all rights, privileges and benefits conferred by this Compact or agreements hereunder shall be suspended from the effective date of such default as fixed by the Commission, and the Commission shall stipulate the conditions and maximum time for compliance under which the defaulting state may resume its regular status. Unless such default shall be remedied under the stipulations and within the time period set forth by the Commission, this Compact may be terminated with respect to such defaulting state by affirmative vote of a majority of the other member states. Any such defaulting state may be reinstated by performing all acts and obligations as stipulated by the Commission.

2 [173.715. The following compact, as amended, is approved and this state is
3 declared to be a party thereto; and agreements, covenants and obligations therein are
4 binding upon the state of Missouri.

5 THE REGIONAL COMPACT

6 1. Whereas, the said states desire to enter into a compact with each other
7 providing for the planning and establishment of regional educational facilities;

8 2. Now, therefore, in consideration of the mutual agreements, covenants and
9 obligations assumed by the respective states who are parties hereto (hereinafter
10 referred as "states"), the said several states do hereby form a geographical district or
11 region consisting of the areas lying within the boundaries of the contracting states
12 which, for the purpose of this compact, shall constitute an area for regional education
13 supported by public funds derived from taxation by the constituent states and derived
14 from other sources for the establishment, acquisition, operation and maintenance of
15 regional educational schools and institutions for the benefit of citizens of the
16 respective states residing within the region so established as may be determined from
17 time to time in accordance with the terms and provisions of this compact.

18 (1) The states do further hereby establish and create a joint agency which
19 shall be known as the board of control for southern regional education (hereinafter
20 referred to as the "board"), the members of which board shall consist of the governor
21 of each state, ex officio, and four additional citizens of each state to be appointed by
22 the governor thereof, at least one of whom shall be selected from the field of
23 education, and at least one of whom shall be a member of the legislature of that state.
24 The governor shall continue as a member of the board during his tenure of office as
25 governor of the state, but the members of the board appointed by the governor shall
26 hold office for a period of four years except that in the original appointments, one
27 board member so appointed by the governor shall be designated at the time of his
28 appointment to serve an initial term of one year; one board member to serve an initial
term of two years; one board member to serve an initial term of three years; and the

29 remaining board member to serve the full term of four years; but thereafter the
30 successor of each appointed board member shall serve the full term of four years.
31 Vacancies on the board caused by death, resignation, refusal or inability to serve,
32 shall be filled by appointment by the governor for the unexpired portion of the term.
33 The officers of the board shall be a chairman, a vice chairman, a secretary, a
34 treasurer, and such additional officers as may be created by the board from time to
35 time. The board shall meet annually and officers shall be elected to hold office until
36 the next annual meeting. The board shall have the right to formulate and establish
37 bylaws not inconsistent with the provisions of this compact to govern its own actions
38 in the performance of the duties delegated to it including the right to create and
39 appoint an executive committee and a finance committee with such powers and
40 authority as the board may delegate to them from time to time. The board may,
41 within its discretion, elect as its chairman a person who is not a member of the board,
42 provided such person resides within a signatory state, and upon such election such
43 person shall become a member of the board with all the rights and privileges of such
44 membership.

45 (2) It shall be the duty of the board to submit plans and recommendations to
46 the states from time to time for their approval and adoption by appropriate legislative
47 action for the development, establishment, acquisition, operation and maintenance
48 of educational schools and institutions within the geographical limits of the regional
49 area of the states, of such character and type and for such educational purposes,
50 professional, technological, scientific, literary, or otherwise, as they may deem and
51 determine to be proper, necessary or advisable. Title to all such educational
52 institutions when so established by appropriate legislative actions of the states and
53 to all properties and facilities used in connection therewith shall be vested in said
54 board as the agency of and for the use and benefit of the said states and the citizens
55 thereof, and all such educational institutions shall be operated, maintained and
56 financed in the manner herein set out, subject to any provisions or limitations which
57 may be contained in the legislative acts of the states authorizing the creation,
58 establishment and operation of such educational institutions.

59 (3) In addition to the power and authority heretofore granted, the board shall
60 have the power to enter into such agreements or arrangements with any of the states
61 and with educational institutions or agencies, as may be required in the judgment of
62 the board, to provide adequate services and facilities for graduate, professional and
63 technical education for the benefit of the citizens of the respective states residing
64 within the region, and such additional and general power and authority as may be
65 vested in the board from time to time by legislative enactment of the said states.

66 (4) Any two or more states who are parties of this compact shall have the
67 right to enter into supplemental agreements providing for the establishment,
68 financing and operation of regional educational institutions for the benefit of citizens
69 residing within an area which constitutes a portion of the general region herein
70 created, such institutions to be financed exclusively by such states and to be
71 controlled exclusively by the members of the board representing such states provided

72 such agreement is submitted to and approved by the board prior to the establishment
73 of such institutions.

74 (5) Each state agrees that, when authorized by the legislature, it will from
75 time to time make available and pay over to said board such funds as may be required
76 for the establishment, acquisition, operation and maintenance of such regional
77 educational institutions as may be authorized by the states under the terms of this
78 compact, the contribution of each state at all times to be in the proportion that its
79 population bears to the total combined population of the states who are parties hereto
80 as shown from time to time by the most recent official published report of the Bureau
81 of Census of the United States of America; or upon such other basis as may be agreed
82 upon.

83 (6) This compact shall not take effect or be binding upon any state unless and
84 until it shall be approved by proper legislative action of as many as six or more of the
85 states whose governors have subscribed hereto within a period of eighteen months
86 from the date hereof. When and if six or more states shall have given legislative
87 approval to this compact within said eighteen months' period, it shall be and become
88 binding upon such six or more states sixty days after the date of legislative approval
89 by the sixth state and the governors of such six or more states shall forthwith name
90 the members of the board from their states as hereinabove set out, and the board shall
91 then meet on call of the governor of any state approving this compact, at which time
92 the board shall elect officers, adopt bylaws, appoint committees and otherwise fully
93 organize. Other states whose names are subscribed hereto shall thereafter become
94 parties hereto upon approval of this compact by legislative action within two years
95 from the date hereof, upon such conditions as may be agreed upon at the time.
96 Provided, however, that with respect to any state whose constitution may require
97 amendment in order to permit legislative approval of the compact, such state or states
98 shall become parties hereto upon approval of this compact by legislative action
99 within seven years from the date hereof, upon such conditions as may be agreed upon
100 at the time.

101 (7) After becoming effective this compact shall thereafter continue without
102 limitation of time provided, however, that it may be terminated at any time by
103 unanimous action of the states and provided further that any state may withdraw from
104 this compact if such withdrawal is approved by its legislature, such withdrawal to
105 become effective two years after written notice thereof to the board accompanied by
106 a certified copy of the requisite legislative action, but such withdrawal shall not
107 relieve the withdrawing state from its obligations hereunder accruing up to the
108 effective date of such withdrawal. Any state so withdrawing shall ipso facto cease
109 to have any claim to or ownership of any of the property held or vested in the board
110 or to any of the funds of the board held under the terms of this compact.

111 (8) If any state shall at any time become in default in the performance of any
112 of its obligations assumed herein or with respect to any obligation imposed upon said
113 state as authorized by and in compliance with the terms and provisions of this
114 compact, all rights, privileges and benefits of such defaulting state, its members on

115 the board and its citizens shall ipso facto be and become suspended from and after
116 the date of such default. Unless such default shall be remedied and made good
117 within a period of one year immediately following the date of such default this
118 compact may be terminated with respect to such defaulting state by an affirmative
119 vote of three-fourths of the members of the board (exclusive of the members
120 representing the state in default), from and after which time such state shall cease to
121 be a party to this compact and shall have no further claim to or ownership of any of
122 the property held by or vested in the board or to any of the funds of the board held
123 under the terms of this compact, but such termination shall in no manner release such
124 defaulting state from any accrued obligation or otherwise affect this compact or the
125 rights, duties, privileges or obligations of the remaining states thereunder.

126 3. In witness whereof this compact has been approved and signed by
127 governors of the several states, subject, to the approval of their respective legislatures
