DESCRIPTION

This bill prohibits political subdivisions from enacting or enforcing any ordinance that does not comply with the limited preemption of the Federal Communications Commission Amateur Radio Preemption order. Any ordinance relating to the placement, screening, or height of an amateur radio antenna based on health, safety, or aesthetic considerations must reasonably accommodate amateur communications and be of minimal practicable regulation.

A political subdivision would be allowed to regulate amateur radio communications if they interfered with the reception of broadcast radio or television signals. Political subdivisions would be allowed to take action to protect, preserve a historic, a historical, or an architectural district that is established by the political subdivision.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
