FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of Administration - Budget and Planning (BAP)** state the proposal should not result in additional costs or savings to their agency. However, this proposal may have a negative impact on Total State Revenue and General Revenue. BAP defers to the Department of Economic Development for the fiscal impact to the state.

Officials from the **Department of Revenue (DOR)** state their Division of Taxation does not anticipate a large number of taxpayers that would/could use this credit. Therefore, DOR will not request additional FTE at this time. However, if the number of additional credits is larger than expected, DOR would need one Tax Processing Tech I for every 4,000 personal taxpayers claiming the credit and one for every 3,680 business taxpayers claiming the credit. These employees would maintain the certification of the credits and verify the amounts on the returns as claimed by the taxpayers.

DOR defers to the Department of Economic Development or BAP for the estimated impact to the General Revenue Fund.

ASSUMPTION (continued)

Officials from the **Department of Insurance (INS)** state the designation of an additional enterprise zone will increase the areas that receive enterprise zone tax credits. If insurance companies invest or expand into the new enterprise zone, they will be eligible for additional tax credits, reducing premium tax revenue. Premium tax revenue is split evenly between General Revenue and the County Foreign Insurance Fund or deposited solely into the County Stock Fund depending on the type of company. The County Foreign Insurance Fund and County Stock Fund are later distributed to school districts. INS is unable to project how much in additional tax credits may be generated and what effect it will have on premium tax collections. Fiscal impact will be an unknown loss of revenue to the three funds.

Officials from the **Department of Economic Development (DED)** state the bill would authorize one new Enterprise Zone in an urban area (Sugar Creek) and a new satellite zone. The bill could result in additional tax credits being issued. At the present time, the volume of credits is not anticipated to be large enough to require additional personnel or E&E to administer. The volume of work will be monitored and at some point could require additional resources. These additional needs would be addressed in a budget request, if necessary. DED assumes, based on averages, that there will be \$892,178 in costs associated with a new urban enterprise zone and a \$60,000 to an unknown amount for the satellite zone. These costs will not be incurred until Fiscal Year 2006.

This proposal may result in a loss of Total State Revenue.

<u>FISCAL IMPACT - State Government</u>	FY 2005 (10 Mo.)	FY 2006	FY 2007
GENERAL REVENUE			
<u>Loss</u> - Enterprise Zone in Sugar Creek	\$0	(\$892,178)	(\$892,178)
<u>Loss</u> - Satellite Zone in Sugar Creek	<u>\$0</u>	(\$60,000 to <u>Unknown</u>)	(\$60,000 to <u>Unknown</u>)
ESTIMATED NET EFFECT TO GENERAL REVENUE	<u>\$0</u>	(\$952,178 to <u>Unknown</u>)	(\$952,178 to <u>Unknown</u>)

Note: This does not reflect the possibility that some of the tax credits could be utilized by insurance companies against insurance premium taxes. If this occurs, the loss in tax revenue would be split between the General Revenue Fund and the County Foreign Insurance Fund, which ultimately goes to local school districts.
