DESCRIPTION

This bill allows the formation of a levee district in one or more counties or in any city. Under current law, water districts can be formed in one or more counties, in a third or fourth class city, and in certain other cities. The bill clarifies voting rights within certain levee districts.

The bill also allows levee districts to construct and maintain waterlines, in addition to their current authority to construct and maintain sewers, levees, dikes, dams, and other similar projects.

Under current law, levee districts located within St. Louis County are allowed an alternative procedure with respect to voting rights and apportionment of installment taxes. The bill extends this procedure to all levee districts.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
