DESCRIPTION

Under current law, a \$2 surcharge is collected in certain criminal cases to be used to develop biometric identification systems for identifying and tracking inmates within local jail systems. The proposed legislation would allow the funds, upon installation of the biometric verification system, to also be used for the maintenance of the biometric verification system and to pay any expenses related to custody and housing and other expenses for prisoners.

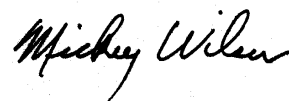

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
