#### FISCAL ANALYSIS

## **ASSUMPTION**

Officials from the **Department of Mental Health** and the **Department of Public Safety** – **Missouri State Highway Patrol** assume the proposal would have no fiscal impact on their agencies.

Officials from the **Office of State Courts Administrator** assume the proposed legislation would have no fiscal impact on the courts.

In response to a similar proposal, officials from the **Office of Prosecution Services** assumed prosecutors could absorb the costs of the proposed legislation within existing resources.

Officials from the **Office of State Public Defender (SPD)** assume new crimes create new cases for the SPD. The exact number of cases affected is too uncertain to provide a definitive dollar amount of fiscal impact. Since the amount of impact is uncertain, the SPD cannot assume existing staff will be able to provide representation in these cases. However, once the true fiscal impact is determined, the SPD will reassess the impact of this legislation. Passage of more than one bill increasing existing penalties or creating new crimes will require increased appropriations for the SPD.

#### <u>ASSUMPTION</u> (continued)

**Oversight** assumes the SPD could experience an increase in case load due to the proposed legislation. Oversight assumes the SPD could absorb the cost of the increased case load within existing resources.

Officials from the **Department of Corrections (DOC)** assume this proposal relates to the crime of escape from commitment for sexually violent predators. Penalty provisions, the component of the bill to have potential fiscal impact for DOC, is for a class D felony.

Currently, the DOC cannot predict the number of new commitments which may result from the enhancement of the offense(s) outlined in this proposal. An increase in commitments depends on the utilization by prosecutors and the actual sentences imposed by the court.

If additional persons are sentenced to the custody of the DOC due to the provisions of this legislation, the DOC will incur a corresponding increase in operational cost either through incarceration (FY03 average of \$38.10 per inmate per day, or an annual cost of \$13,907 per inmate) or through supervision provided by the Board of Probation and Parole (FY03 average of \$3.15 per offender, per day or an annual cost of \$1,150 per offender).

The DOC does not anticipate the need for capital improvements at this time. It must be noted that the cumulative effect of various new legislation, if passed into law, could result in the need for additional capital improvements funding if the total number of new offenders exceeds current planned capacity.

The following factors contribute to DOC's minimal assumption:

- ▶ DOC assumes the narrow scope of the crime will not encompass a large number of offenders;
- The low felony status of the crime enhances the possibility of plea-bargaining or imposition of a probation sentence; and
- The probability exists that offenders would be charged with a similar but more serious offense or that sentences may run concurrent to one another.

In summary, supervision by the DOC through probation or incarceration would result in some additional costs, but DOC assumes the impact would be \$0 or a minimal amount that could be absorbed within existing resources.

#### FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

## **DESCRIPTION**

The proposed legislation would expand the crimes of escape from commitment and escape from custody. Escape from commitment, a class D felony, would be amended to include an escape by a person who has been civilly committed as a sexually violent predator. The offense would include an escape made while the person is being detained in a secure facility for evaluation prior to commitment.

The proposal would also make the crime of escape from custody a class D felony when the person had been ordered by a court to be taken into custody at a secure facility for the purpose of determining whether the person should be civilly committed as a sexually violent predator. Under current law, escape from custody is a class A misdemeanor, unless the person was arrested for a felony, in which case the escape is a class D felony.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
