### FISCAL ANALYSIS

#### ASSUMPTION

Officials of the **Office of Secretary of State (SOS)** assume any fiscal impact from this proposal would be handled with existing budgeted resources and staff.

Officials of the Office of Secretary of State- Administrative Rules stated this proposal creates the Secretary's Council on Library Development, and the State Publications Access Program, and gives the authority to the Secretary of State to promulgate rules to implement the provisions of this bill. Rules are printed in both the Missouri Register, and the Code of State Regulations. Officials stated that based on experience, the rules and regulations and forms issued by the SOS could require as many as 10 pages in the Code of State Regulations. The estimated cost of a page in the Missouri Register is \$23.00, and the estimated cost of a page in the Code of State Regulations is \$27.00. The actual cost could be more or less than the numbers given. The impact in future years is unknown and depends upon the frequency and length of rules filed, amended, rescinded, or withdrawn. Officials estimated costs in FY 04 at (\$615) and Unknown in FY 05 and 06.

ASSUMPTION (continued)

**Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process. Any decisions to raise fees to defray costs would likely be made in subsequent fiscal years. Oversight assume no fiscal impact to the Administrative Rules Division.**

Officials of the **Department of Public Safety- Missouri Veterans Commission** assume they would need to send 50 annual reports to libraries and agencies. Officials estimate cost to the HOME FUND at 50 reports x \$8.00 = \$400 in FY 04.

**Oversight assumes the Veterans Commission could request additional resources during the budget process if they would need additional resources. Oversight assumes no fiscal impact to the Veterans Commission.**

Officials of the **Department of Revenue - State Tax Commission** assume their Commission could possibly realize a small savings in the cost of publication of the annual report as the current requirement to provide forty-five copies of the report has been removed. However, the new language provides that the state library would specify the number of copies needed. Should the library request more than the current forty-five, the Commission could possibly need additional revenue to cover this cost. **Oversight assume no fiscal impact to the State Tax Commission. Oversight assumes any increase in publication cost would be minimal and could be dealt with in future appropriations.**

**The following Departments, Offices, Commissions, and Agencies assume no fiscal impact:**

**Highway and Transportation Employees' and Highway Patrol Retirement System, Department of Revenue, Department of Public Safety-Division of Fire Safety, Office of State Courts Administrator, Missouri Senate, Missouri Consolidated Health Care Plan, Department of Elementary and Secondary Education, Office of State Auditor, Office of Lt. Governor, Department of Economic Development - Public Service Commission, Missouri Ethics Commission, the Department of Public Safety - Division of Alcohol and Tobacco Control, and the Department of Social Services.**

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

This proposal establishes a council on library development to advise the Secretary of State and the Missouri State Library on matters relating to library service, recommend library policies and programs, and communicate the value of libraries. The Secretary of State will appoint council members to three-year terms and include representatives from both houses of the General Assembly, the public, libraries, and trustees and users of state libraries.

The proposal changes the current requirement for state agencies to supply 45 copies of any report to the Missouri State Library to paper copies in the numbers specified by the Missouri State

Library. The proposal gives responsibility to each state agency to submit publications electronically consistent with the state's enterprise architecture and to determine the format of the publication. The Secretary of State must provide a secure electronic repository of state publications with multiple access methods and establish rules for selection of participating libraries and the electronic formats acceptable for publications in the repository. The Missouri State Library will administer the electronic repository and continue to publish a list of state publications, regardless of format. Participating libraries, formerly referred to as depository libraries, will ensure that citizens have access to electronic publications and maintain paper copies of designated publications; assist agencies in the distribution of paper copies; and provide training for staff in the use of state publications. Any actions taken must comply with the federal law on the accessibility of information technology for people with disabilities.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
