FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of House of Representatives** stated this proposal would have no impact on their agency.

Officials from the **Office of the Senate** stated the proposal would have no impact or minimal costs which could be absorbed within existing appropriations.

Officials from the **Department of Transportation (DHT)** indicate they will require an additional part-time Senior Clerk position to work 1,000 hours annually. The Senior Clerk would enter real estate data into the system and provide monthly, quarterly and annual data reports. The hourly salary for a senior clerk is \$11.72. Therefore, the cost for this part-time position will be \$11,720 (1,000 hours X \$11.72) plus associated fringe benefits. The new part-time Senior Clerk would require a computer and software.

Currently, DHT has approximately \$200,000 for the development of a real estate inventory database application in their budget. However, an additional \$117,000 for a related imaging application would be required to aid in the function of the database.

Based on additional information provided by DHT officials, the inventory database application
