

HB 767 -- State Institutions of Higher Education

Sponsor: Schaaf

This bill renames Missouri Western State College as a university and gives the institution a statewide mission in applied learning and a board of governors with seven voting members instead of its current six-member board. Unless the Coordinating Board for Higher Education approves the continuation of associate degree programs by July 1, 2007, Missouri Western will discontinue those programs beginning July 1, 2011.
