

HB 823 -- Property Tax Levies

Sponsor: Cooper (120)

Under current law, all counties, beginning in 2005, will be required to separately calculate and make adjustments to tax levies within residential, commercial, agricultural, and personal property classifications, then combine those tax rates into one county levy. St. Louis County has been required to do this since 2003. This bill repeals the requirements for all counties, except St. Louis County.
