

HB 1137 -- A+ Schools Program

Sponsor: Rupp

This bill changes the A+ Program from a tuition reimbursement program to a loan repayment program for federal Stafford loans used for books and tuition for certificate and associate degree programs. Repayment of loans is conditioned upon the student's completion of a program within a stated time period. If the student does not complete the program within that period, the student must use his or her own funds to repay the loan.
