

HB 1138 -- A+ Schools Program

Sponsor: Rupp

This bill changes the A+ Program from a tuition and book expense reimbursement program to a loan repayment program for federal Stafford loans used for tuition for programs at community colleges, vocational-technical schools, and state four-year colleges and universities. Repayment of loans is conditioned upon the student's completion of a program within a stated time period. If the student does not complete the program within that period, the student must use his or her own funds to repay the loan.
