

HB 1208 -- Private Employer Use of State Funds

Sponsor: Bland

This bill prohibits a private employer that receives state funds in excess of \$10,000 in any calendar year for its participation in a state program from using the funds to assist, promote, or deter union organizing. The employer is required to keep certain records and make them available, upon request, to the Director of the Department of Labor and Industrial Relations.

The director may bring a civil action for injunctive relief, damages, civil penalties, and other appropriate relief against an employer in violation of the bill.
