

HB 1484 -- Planning and Zoning

Sponsor: Smith (118)

This bill allows temporary planning commissions for unincorporated areas specified by the county commission. The temporary plan will affect only the specified area and will not become permanent until approved by the voters. The members of the temporary area planning commission will be the highway engineer, one person appointed by the county commission, and three residents of the specified area. If the plan is approved by the voters, a three-member area planning commission is elected at the next countywide election. The county highway engineer is an ex officio member of the area planning commission.
