

## HJR 49 -- Limits on State Appropriations

Sponsor: Lager

This proposed constitutional amendment prohibits appropriations in any fiscal year from exceeding the total state general revenue appropriations from the previous year by more than the appropriations growth limit. The appropriations growth limit is the greater of zero or the sum of the annual rate of inflation and the annual Missouri population growth.

For any fiscal year in which the net general revenue collections are in excess of 1% above the authorized net general revenue appropriations allowed, in equal amounts, the excess is to be transferred to the Cash Operating Reserve Fund and the Budget Reserve Fund. Any revenue in excess of the specified limits of the funds will be refunded, pro rata, based on tax liabilities reported in the tax year in which the fiscal year ended.

Total state general revenue appropriations may exceed the appropriations limit only if the Governor declares an emergency and the General Assembly approves appropriation bills to meet the emergency. The funds appropriated to meet the emergency will not increase the appropriation limit for the succeeding fiscal year.

One-half of the balance in the Budget Reserve Fund is to be transferred to the Cash Operating Reserve Fund. The Cash Operating Reserve Fund's maximum balance is three and three-fourths the net general revenue collected in the previous fiscal year. Funds in excess of the maximum balance will be transferred to the General Revenue Fund.

In any fiscal year in which the Governor reduces expenditures below amounts appropriated, the Governor may request an emergency appropriation from the Budget Reserve Fund. If the request is approved by the General Assembly, funds may be restored to any expenditure authorized by existing appropriations. The Budget Reserve Fund's maximum balance at the end of a fiscal year is 5% of the net general revenue collections for the previous fiscal year. Funds in excess of the maximum balance are to be transferred to the General Revenue Fund. If the balance in the Budget Reserve Fund at the end of a fiscal year is less than 5% of the net general revenue collections for the previous fiscal year, the difference will be transferred from the General Revenue Fund.
