FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Mental Health, Department of Health and Senior Services, Department of Public Safety – Director’s Office, – Missouri State Highway Patrol** assume the proposal would have no fiscal impact on their agencies.

Officials from the **Office of State Courts Administrator** assume the proposed legislation would have no fiscal impact on the courts.

Officials from the **Office of Prosecution Services** assume the proposal would not have a significant direct fiscal impact on county prosecutors.

Officials from the **Office of the State Public Defender (SPD)** assume existing staff could provide representation for those few cases arising where indigent persons were charged with distributing a controlled substance near schools to include long-term and child care facilities. Passage of more than one bill increasing penalties on existing crimes or creating new crimes would require the SPD to request increased appropriations to cover the cumulative cost of representing indigent persons accused in the now more serious cases or in the new additional cases.

ASSUMPTION (continued)

Officials from the **Department of Corrections (DOC)** state this proposal revises the offense of distribution of a controlled substances near schools to include child care facilities, long-term care facilities, long-term care facilities and residences of in-home child care providers.

DOC states that currently, they cannot predict the number of new commitments which may result from the enhancement of the offenses(s) outlined in this proposal. An increase in commitments depends on the utilization by prosecutors and the actual sentences imposed by the court.

If additional persons are sentenced to the custody of the DOC due to the provisions of this legislation, the DOC will incur a corresponding increase in operational cost either through incarceration (FY04 average of \$38.37 per inmate per day, or an annual cost of \$14,005 per inmate) or through supervision provided by the Board of Probation and Parole (FY03 average of \$3.15 per offender per day, or an annual cost of \$1,150 per offender).

In summary, supervision by the DOC through probation or incarceration would result in additional unknown costs to the department. Eight (8) persons would have to be incarcerated per fiscal year to exceed \$100,000 annually. Due to the narrow scope of this new crime, it is assumed the impact would be less than \$100,000 per year for the DOC.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

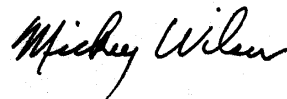

DESCRIPTION

The proposed legislation would expand the crime of distribution of a controlled substance within 2,000 feet of a school, a class A felony, to include child care facilities, long-term care facilities, and the residences of paid in-home child care providers.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
