FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of the State Courts Administrator, Office of Prosecution Services** and the **Department of Public Safety** each assume the proposal would not fiscally impact their respective agencies.

Officials from the **Office of the State Public Defender (SPD)** state that for the purpose of this proposal, the SPD assumes that existing staff could provide representation for those few cases arising where indigent persons were charged with the crime of trespass on school property, a class C misdemeanor.

Passage of more than one bill increasing penalties on existing crimes or creating new crimes would require the SPD to request increased appropriations to cover the cumulative cost of representing indigent persons accused in the now more serious cases or in the new additional cases.

Officials from the **Department of Elementary and Secondary Education (DESE)** assume there is no state cost to the foundation formula associated with this bill. Should the new crimes and amendments to current law result in additional fines or penalties, DESE cannot know how much additional money might be collected by local governments or the Department of Revenue

ASSUMPTION (continued)

to distribute to schools. Any increase in this money distributed to schools becomes a deduction in the foundation formula the following year. Therefore the affected districts will see an equal decrease in the amount of funding received through the formula the following year; unless the affected districts are hold-harmless, in which case the districts will not see a decrease in the amount of funding received through the formula (any increase in fine money distributed to the hold-harmless districts will simply be additional money). An increase in the deduction (all other factors remaining constant) reduces the cost to the state of funding the formula with a proration factor of 1.00.

Officials from **Nixa Public Schools** and the **Sedalia School District** did not respond to Oversight's request for fiscal impact.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

This proposal creates the crime of trespass on school property when a person enters school property knowingly and unlawfully during school hours without the consent of school officials in order to create a disturbance or commit a crime. Trespass on school property is a class C misdemeanor.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
