FISCAL ANALYSIS

ASSUMPTION

The **Joint Committee on Public Retirement** indicates that this legislation does represent a "substantial proposed change" in future plan benefits as defined in Section 105.660(5). Therefore, an actuarial cost statement as defined in Section 105.665 must be provided prior to final action on this legislation by either legislative body or committee thereof.

Pursuant to Section 105.670, this actuarial cost statement must be filed with 1) the Chief Clerk of the Missouri House of Representatives, 2) the Secretary of State and 3) the Joint Committee on Public Employee Retirement as public information for at least (5) legislative days before final passage of the bill.

An actuarial cost statement for this legislation has not been filed with the Joint Committee on Public Retirement. It would be impossible to accurately determine the fiscal impact of this proposed legislation without the actuarial cost statement prepared in accordance with Section 105.665.

Officials with the **City of St. Louis** assume this proposal would suggest a significant increase in liabilities and annual contributions. Based on the "Rough Cost Estimates", the proposal would increase the Retirement Systems liabilities by \$13 to \$16 million. Furthermore, the annual

ASSUMPTION (continued)

contribution, provided by the City, would increase annually by \$1.5 to \$1.8 million.

As of 9/30/04 the Police Retirement System reported unfunded liabilities of \$127.7 million dollars, additional benefits being passed in the proposal would increase the unfunded liability by \$13 to \$16 million.

Note that the estimated costs provided are not based on an actual cost study. An actual study may result in significantly different costs.

Officials with the **County Employees Retirement System** and **Kansas City Police Retirement System** assume no fiscal impact to their agency.

A response was not received from the **St. Louis Police Retirement System** and **St. Louis Metro Police Department**.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

This bill raises the benefit that retired members of the Police Retirement System of St. Louis serving as special advisors will receive from \$10 to \$15 per month multiplied by the number of years the member's age exceeds 60.

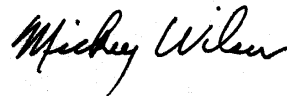

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
