

HB 55 -- State Aid for Public Schools

Sponsor: Johnson (47)

This bill combines lines 1a and 1b of the school funding formula, which determine the entitlement of a school district to state school aid. Currently, the lines have separate proration factors that permit a higher proration factor to be used on line 1a, the portion of the entitlement that covers the minimum levy, if the formula is not fully funded. No change is made to the line 14a and b proration factors for at-risk student funding.

The bill has an effective date of July 1, 2006.
