

HB 246 -- Durable Medical Equipment Providers

Sponsor: Shoemyer

This bill requires health insurance carriers and health benefit plans to include in their service provider networks any durable medical equipment provider who has a main office located in a Missouri community with a population of 25,000 or less, is certified by the Missouri State Board of Pharmacy and as a Medicare and/or Medicaid provider, and registers with the Department of Insurance as an eligible durable medical equipment provider. The department must verify the eligibility of the provider's registration and make the durable medical equipment provider registry available to all health carriers and health benefit plans licensed to do business in Missouri.
