

HB 251 -- Teachers on Strike

Sponsor: Cunningham (86)

This bill adds participation in a strike to the list of reasons for termination of a tenured teacher's contract. A teacher who strikes cannot use sick leave or vacation time to cover his or her absence; and if the district does not remain in operation, additional days of work for days missed will be added to the schedule. Labor organizations must notify teachers of strike votes at least three days before the vote in a manner that includes proof of receipt of the notice, which may be electronic, and the purpose, time, and location of the vote.
