

HB 282 -- Inclement Weather Exceptions to Mandatory Days of
School Attendance

Sponsor: Whorton

Currently, school districts are allowed to reduce the number of days in the school calendar because of inclement weather during school year 2002-2003 and waive the requirement to schedule make-up days in 2003-2004. This bill makes those reductions applicable to the 2004-2005 school year and waives the required two-thirds make-up for 2005-2006.

The bill contains an emergency clause.
