

HB 433 -- Classification of Telecommunications Companies

Sponsor: Rector

Currently, each telecommunications service of an incumbent local exchange telecommunications company will be classified as competitive in any exchange in which at least one alternative local exchange telecommunications company has been certified and has provided local telecommunications service in that exchange for at least five years. This bill specifies that two non-affiliated entities providing basic local telecommunications service to business customers within the exchange are required in order to be classified as competitive.
