

HB 510 -- Hazardous Waste Regulations

Sponsor: Bruns

This bill eliminates the requirement that generators located outside the state must register with the Department of Natural Resources. The bill requires Missouri treatment, storage, and disposal facilities to pay a fee equal to \$2 per ton or a portion thereof, not to exceed \$52,000 but not less than \$150 per site per year, for all hazardous waste received from outside the state. Additionally, payment for any other expenditures which are not covered under the federal Comprehensive Environmental Response, Compensation and Liability Act of 1980 will be received by the Hazardous Waste Fund. Currently, 40% of all moneys collected by the department pursuant to hazardous waste regulation is deposited into the Hazardous Waste Remedial Fund and 60% deposited into the Hazardous Waste Fund. The bill allows for all moneys collected to be deposited into the Hazardous Waste Fund and eliminates the Hazardous Waste Remedial Fund.
