

HB 595 -- Jury Service

Sponsor: Deeken

Currently, doctors, chiropractors, dentists, and pharmacists may be excused from jury service if they provide a written statement certifying that they are providing health care services and that serving as a juror would be detrimental to the health of their patients. This bill adds funeral directors to the list of persons who may be excused from jury service if they certify in writing that they serve the public and that jury service would be detrimental to the public safety, health, welfare, or interest.
