

HB 598 -- Nursing Home Administrators

Sponsor: Sutherland

This bill changes the laws regarding the licensing of nursing home administrators. Every administrator's license will expire on June 30 following the year it was issued and every other year thereafter. An administrator seeking a renewal must file an application during the month of May of the year of their renewal, accompanied by a fee, as provided by rule, payable to the Department of Health and Senior Services. All licenses issued or renewed during 2006 can be for either a one- or two-year term as dictated by rule.
