

HB 762 -- Advance Voting System

Sponsor: Donnelly

This bill replaces the current absentee ballot process with an advance voting system. The advance voting period will begin on the sixth Tuesday prior to an election and will close at 5 p.m. on the Monday prior to the election. In addition to central voting sites, up to seven satellite sites are required to be established in each jurisdiction; one for each 60,000 registered voters. Provisions are also established for advanced mail voting.

The bill will become effective January 1, 2006.
