

HB 930 -- Sale of Tobacco Products

Sponsor: Brown (30)

This bill requires entities that sell or distribute tobacco products or rolling papers to obtain a retail sales tax license and a license from the Division of Alcohol and Tobacco Control within the Department of Public Safety. A separate license is required for each place of business and for each vending or coin-operated machine. A license is valid for one year and must be conspicuously displayed at all times. Any person who violates the licensing provisions is subject to civil penalties, and anyone selling tobacco products to a minor is subject to license suspension.
