ESTIMATED NET EFFECT ON LOCAL FUNDS			
FUND AFFECTED	FY 2007	FY 2008	FY 2009
Local Government	\$0	\$0	\$0

FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Elementary and Secondary Education (DESE)** assume little to no impact on the department or local school districts. There may be some printing costs associated with modification of this language; however, the modifications would not prohibit the materials from including the latest medically factual information.

Officials from the **Department of Health and Senior Services (DOHSS)** state this proposal would not be expected to fiscal impact the operations of DOHSS. If a fiscal impact were to result, funds to support the program would be sought through the appropriations process

Officials from the following school districts assume no fiscal impact resulting from this proposal, as written: **Poplar Bluff; Parkway; Columbia; Francis Howell; Kansas City.**

A fiscal impact request was sent to the school districts of **St Louis, Maryville, Salisbury and others** as well as **Central Missouri State University** who did not respond to a request for fiscal impact of the proposal.

Oversight assumes any minimal costs to DESE or the school districts can be absorbed with existing resources.

<u>FISCAL IMPACT - State Government</u>	FY 2007	FY 2008	FY 2009
	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>
<u>FISCAL IMPACT - Local Government</u>	FY 2007	FY 2008	FY 2009
	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

This proposed legislation revises existing requirements for presenting information in public schools relating to contraception and sexually transmitted diseases. Students must be informed that personally and medically relevant information concerning contraception, abortion, and pregnancy may be obtained from their family practitioner rather than presenting students with the latest medically factual information regarding side effects, health benefits, and failure rates for methods of prevention of pregnancy and sexually transmitted diseases.

Currently, curriculum materials must be made available for inspection prior to use. The proposal clarifies that the materials should be available one week before use and also requires that schools must make known the instructor's name and any affiliation with an entity involved with human sexuality instruction at least one week in advance. No entity providing abortion services is permitted to furnish materials or instruction. The proposal also clarifies that its provisions are applicable to charter schools.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
