FISCAL IMPACT - Small Business

This proposal may impact small business physician offices.

DESCRIPTION

This proposal expands the definition of "supervision" of physician assistants to allow supervising physicians to be available via telecommunications for consultation, assistance, or intervention. Supervising physicians must be present a minimum of 20% of the clinic's hours for practice supervision and collaboration when utilizing physician assistants. No physician will supervise more than three physician assistants; however, this provision does not apply to physician agreements with hospital employees.

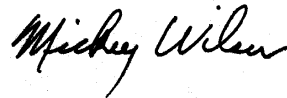

Physician assistants must practice within 30 miles of the supervising physician, with the mileage limit for practicing in federally designated health professional shortage areas being 50 miles.

The proposal requires, after January 1, 2007, that applicants for a physician's assistant license have a master's degree in a health or medical science related field.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
