### DESCRIPTION

This proposal changes the definition of "practice of chiropractic" to the examination, diagnosis, and treatment of disease by methods commonly taught in any chiropractic college or chiropractic program in a university which has been accredited by the Council on Chiropractic Education, or its successor entity. Currently, it is defined as those methods commonly taught in any chiropractic college recognized and approved by the State Board of Chiropractic Examiners.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
