FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of Administration, Division of Purchasing and Materials Management** (DPMM) assume this proposal would require DPMM to revise current bid language to inform bidders of the bonus preference given to bids for products and services manufactured, produced, or assembled by qualified nonprofit organizations for the blind. Also, DPMM would have require an affidavit signed by the director or manager and board president of a participating nonprofit organization to be provided to the purchasing agency by the contractor for compliance verification.

The increase in the bonus points could skew the evaluation and cause the award to go to a bidder other than the lowest and best based on the bonus points given rather than bid's merits. DPMM officials stated they were unable to determine the fiscal impact of this bill on future state contracts.

Officials from the **Office of Administration, Office of the Commissioner** (OA) assume this proposal would require OA to give a 25 point preference where the bidder includes as part of the bid a sheltered workshop or nonprofit company for the blind, so long as the workshop or nonprofit earns \$5,000 out of the contract. OA estimated the cost of this proposal from zero to infinity.

ASSUMPTION (continued)

Officials from the **Office of Administration, Administrative Hearing Commission** and the **Department of Elementary and Secondary Education** assume this proposal would have no fiscal impact on their organizations.

Oversight assumes this proposal could have an unknown negative impact on state funds and on local governments. Oversight is not able to estimate the number of organizations which might qualify for this bidding preference or the number and amount of contracts they might be awarded as a result of this bid preference. However, because this proposal would not require an increase in the budget or appropriations for any state fund, Oversight has not shown any fiscal impact to state funds.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

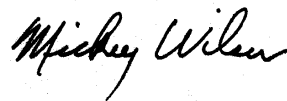

This proposal would modify bidding preference procedures for state purchases. The proposal would increase the preference points from five to twenty-five for qualified nonprofit organizations for the blind, and for sheltered workshops approved by the Department of Elementary and Secondary Education, if the work would generate revenue in excess of five thousand dollars per year for the nonprofit organization.

In addition, the proposal would mandate a standard pay rate of sixty-five dollars per standard thirty-hour work week at sheltered workshops approved by the Department of Elementary and Secondary Education.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
