### DESCRIPTION

The proposed legislation specifies that any state, county, or municipal law enforcement officer who has the power to arrest an individual for driving with excessive blood-alcohol content or driving while intoxicated, and is certified under Missouri law, will administer a chemical test to any person suspected of driving a motor vehicle involved in a collision which resulted in a fatality or serious physical injury.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
