47 adopted to regulate the production, transportation, processing, manufacture, distribution and sale
48 of graded fluid milk and fluid milk products.

196.949. Graded fluid milk or fluid milk products not inspected under state milk
2 inspection may be sold, offered for sale, exposed for sale, and delivered in the state of Missouri,
3 or any municipality thereof, if approved [jointly] by the [director of the department of agriculture
4 and the director of the department of health and senior services] **state milk board** as provided
5 for by regulations adopted [jointly] by the [two agencies and the] state milk board; provided that,
6 the graded fluid milk or fluid milk products from other states shall be produced and processed
7 under the supervision of a duly authorized governmental agency operating under the provisions
8 of an ordinance, statute, or regulation substantially equivalent to the regulations promulgated and
9 adopted by the state milk board and enforced with equal effectiveness as determined by an

13 having jurisdiction over the production and processing is properly enforcing such provisions.

196.951. The [department of health and senior services] **state milk board** is hereby
2 designated as the official rating agency. At least [annually] **biannually**, or as often as necessary,
3 the [department of health and senior services] **state milk board** shall make an official rating
4 survey to determine if there is appropriate and effective enforcement of the standards and
5 provisions of sections 196.931 through 196.953 and such other surveys as may be necessary to
6 assure enforcement of sections 196.931 through 196.953 throughout the state. Unsatisfactory
7 conditions shall be deemed to exist when a rating below the minimum acceptable rating
8 established by the [director of the department of agriculture and the director of the department
9 of health and senior services] **state milk board** is found by the official rating survey. Violation
10 of sections 196.931 through 196.953 shall be deemed to exist when the unsatisfactory conditions
11 causing the rating to fall below the minimum acceptable rating are not corrected within ninety
12 days. The minimum acceptable rating shall be ninety percent for the pasteurized milk supply as
13 determined by rating methods recognized by the United States Public Health Service Food and
14 Drug Administration. The [director of the department of agriculture and the director of the
15 department of health and senior services] **state milk board** shall [jointly] promulgate and adopt
16 a single method of making official rating surveys of all milksheds. Official surveys shall be

17 made by a method substantially equivalent to procedures outlined in United States Governmental
18 Printing Office Publication Number 678, titled "Methods of Making Sanitation Ratings of
19 Milksheds".
