

HB 1084 -- Child Care Providers

Sponsor: Pollock

This bill requires in-home child care providers who are exempt from licensure requirements to furnish the parents or legal guardians of any child receiving services a background check of every person in the home older than 17 years of age. A background check must be conducted prior to the initial provision of child care services and every two years thereafter and must include a screening for child abuse or neglect and a criminal record review.

Child care providers are required to notify the Department of Health and Senior Services that they have complied with the background check requirements.
