

HB 1862 -- Booking Charges

Sponsor: Johnson (90)

This bill allows the sheriff, chief of police, or the chief law enforcement officer of any law enforcement department or agency which has a booking or processing facility to charge \$25 for each booking or processing occurrence of a person through his or her jail or detention facility. The moneys collected will be used to provide law enforcement officers, departments, or agencies with software technology, approved by the State Highway Patrol, for record keeping, identification, incarceration, release reporting, and other relevant functions. Any person who fails to pay the booking charge will have his or her probation or parole revoked and may be subject to a civil suit.
