

HB 1919 -- Missouri Medicaid Program Benefits

Sponsor: Cooper (158)

This bill requires the Family Support Division within the Department of Social Services to refer to vocational rehabilitation services all recipients of Missouri Medicaid Program benefits whose eligibility is based on a disability and who are at least 16 years of age. A recipient who fails to comply with these services will not be eligible for benefits.

These provisions do not apply to an individual whose disability is permanent and total.
