

HB 1929 -- Prevailing Wage

Sponsor: Munzlinger

Currently, workers employed on a public works project, except for maintenance workers, are to be paid a wage of no less than the prevailing hourly rate paid for similar work in the locality in which the work is to be performed. This bill exempts work on any project with a total cost of \$750,000 or less located in any county of the third classification if approved by the governing body by majority vote.
