

HCS HB 1970 -- MITIGATION OF PROPERTY DAMAGE AND DESTRUCTION
(Munzlinger)

COMMITTEE OF ORIGIN: Special Committee on Agri-Business

This substitute exempts owners of anhydrous ammonia from reasonable cleanup costs caused by illegal tampering and specifies that a person who negligently damages or destroys a field crop product is liable only for actual damages directly related to the damaged or destroyed crop. Currently, a person who knowingly damages or destroys a field crop product is liable for double the damages.

FISCAL NOTE: No impact on state funds in FY 2007, FY 2008, and FY 2009.
