

HB 2056 -- Kansas City School Board Elections

Sponsor: Yates

This bill preserves the subdistrict structure of the Kansas City School District but requires, beginning with the 2007 school election, that six members who reside in the subdistrict from which they seek election be elected by a vote of the entire district rather than their subdistrict. Three additional at-large members may reside anywhere in the district and will also be elected district-wide. A vacancy for which no candidate files will be filled by the school board appointment of a resident of the subdistrict affected.
