FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Public Safety - Divisions of Fire Safety and Office of the Director** each assume the proposal would not fiscally impact their respective agencies.

Officials from the **Department of Revenue (DOR)** state based on figures provided by the State Fire Marshal's Office, there are 625 volunteer fire departments in the state of Missouri, containing a total of 12,652 volunteer firefighters. There are also listed, 80 departments that file with the Marshal's Office as "part-paid/part-volunteer", meaning some of their crew are paid personnel & the rest are on a volunteer basis. The firefighters located in these 80 departments total 3,211; however, there is no way of determining how many from each department is paid and how many are on a volunteer basis. DOR's figures will be based only on the 12,000 volunteer firefighters.

DOR's administrative impact:

DOR's Personal Tax - This new credit will require an additional line on the MO-TC form. Personal Tax will require 2 Tax Processing Technician I for processing and tracking of the credit. One Temporary Tax Employee for the additional key-entry. One Tax Processing Technician I for maintenance and handling correspondence, for every 2,400 pieces of correspondence received (total = 5 FTE (12,000 firefighters / 2,400 pieces of correspondence)). And one Tax Processing Technician I for every 6,000 credits claimed with the carry-forward provisions (total = 2 FTE (12,000 firefighters / 6,000 credits claimed)).

DOR's Customer Service - This tax credit will generate some inquiries and could result in some notice of adjustments due to documentation issues, but will not have a significant impact. Customer Service anticipates handling the increase in volume with existing staff.

Due to the Statewide Information Technology Consolidation, DOR's response to a proposal will now also reflect the cost estimates prepared by OA-IT for impact to the various systems. As a result, the impact shown may not be the same as previous fiscal notes submitted. In addition, if the legislation is Truly Agreed to and Finally Passed the OA-IT costs shown will be requested through appropriations by OA-IT.

Office of Administration Information Technology (ITSD DOR) estimates the IT portion of this request can be accomplished within existing resources, however; if priorities shift, additional FTE/overtime would be needed to implement. Office of Administration Information Technology (ITSD DOR) estimates that this legislation could be implemented utilizing 5 existing

ASSUMPTION (continued)

CIT III for 2 months at a rate of \$41,860.

In summary, DOR estimates an annual cost of roughly \$350,000 for the 9 additional FTE.

Oversight will assume the DOR would be able to implement this proposal with 5 additional FTE and have adjusted the expense accordingly.

Officials from the **Office of Administration - Budget and Planning (BAP)** state this proposal creates a \$180 income tax credit for volunteer firefighters that meet certain training requirements, or \$360 if additional training requirements are met. The Department of Public Safety estimates there are approximately 13,000 volunteer firefighters that might qualify for the \$180 credit, which would reduce Total and General State Revenues by \$2.34 million. If all these volunteers qualify for the \$360 credit, general and total state revenues would be reduced an additional \$2.34 million.

Officials from the **Office of the Secretary of State (SOS)** assume many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS's office recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, we also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what our office can sustain with our core budget. Therefore, we reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight will range the fiscal impact of the tax credit from \$0 (no firefighters taking advantage of the credit) to \$4.68 million (estimated 13,000 volunteer firefighters x \$360 maximum tax credit) in losses to the General Revenue Fund. The fiscal impact could be substantially less if fewer firefighters apply for the credit and if those that do apply for the credit only qualify for the \$180 credit instead of the \$360 credit. The credit is for tax years beginning on or after January 1, 2007, therefore, Oversight will show a potential loss from the proposal in FY 2008.

Oversight compared the total tax credit issuances relative to the total tax credit redemptions for the previous three years in order to determine a relationship between the two. Oversight discovered that the annual redemptions ranged from 79 percent to 86 percent of the annual issuances. Depending on the program, the redeemed credits may have been issued several years

ASSUMPTION (continued)

prior and carried forward to the years studied; however, Oversight will utilize an estimated redemption total of 83 percent of tax credits issued. Therefore, under this proposal, if \$4,680,000 of credits are issued, Oversight would assume \$3,884,400 (83%) of credits to be redeemed, reducing Total State Revenues.

This proposal will decrease Total State Revenues.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

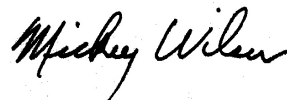

This proposal authorizes a \$180 income tax credit for volunteer firefighters who complete at least 12 hours of any firefighter training program approved by the State Fire Marshal. If the firefighter completes at least 30 additional hours of training after the initial 12 hours of training, the firefighter may claim a \$360 credit. The tax credit is not refundable but can be carried forward for four years.

The provisions of the bill will expire six years from the effective date.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
