FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Public Safety – Director’s Office** and the – **Missouri State Highway Patrol** assume the proposal would have no fiscal impact on their agencies.

Officials from the **Office of State Courts Administrator** assume the proposed legislation would have no fiscal impact on the courts.

Officials from the **Office of Prosecution Services (OPS)** state in the absence of estimates as to the number of increased cases that would be referred to county prosecutors for charges because of this proposed legislation, it is difficult to determine if this proposal would have a significant direct fiscal impact on county prosecutors or the OPS. OPS assumes, in the absence of such estimates, there would not be a significant number of cases referred for prosecution and, therefore, prosecutors would not experience a significant direct fiscal impact.

Officials from the **Office of the State Public Defender (SPD)** assume this new crime will require more SPD resources. While the number of new cases (or cases with increased penalties) may be too few or uncertain to request additional appropriations for this specific bill, the SPD will continue to request sufficient appropriations to provide competent and effective representation in all its cases.

Oversight assumes the Office of the State Public Defender (SPD) could absorb the costs of the proposed legislation within existing resources. Oversight assumes any significant increase in the workload of the SPD would be reflected in future budget requests.
