FISCAL ANALYSIS

ASSUMPTION

Officials from the **Missouri Gaming Commission (GAM)** state this legislation will result in an indeterminable increase to GAM's Compulsive Gamblers Fund. Jack pot winnings are considered "non bets" and as such there is currently no documented information related to the subject. Based on anecdotal information, however, GAM believes the total amount of revenue generated to the Compulsive Gambler Fund per year will be less than \$100,000 for all eleven casinos now licensed in Missouri.

Oversight will utilize GAM's estimate of up to \$100,000 annual increase to the Compulsive Gamblers Fund as a result of this proposal.

This proposal may increase Total State Revenues.
